DOMINION-WIDE FISH AND GAME BODY NOW PLAN

Conference To Be Held in Ottawa in February for Purpose of Organizing Association, Which Hopes to Make Canada Richest Country in World in Respect of Wealth of Fish and Game; Surveys of Wild Life Planned; All Provinces To Be Represented.

A Dominion fish and game conference will be held in Ottawa some time in February for the purpose of organizing the Dominion Fish and Game Association, it is announced by C. A. Hayden of Calgary, who is chairman of the proposed association, and who has been on the coast for a few days. It is hoped that the convention will be held immediately after the annual conference of the parks and game officials at Ottawa.

J. B. Harkin, commissioner of Canada's national parks, who has been co-operating with Mr. Hayden in arranging the details of the fish and game convention, has suggested that the organization meeting take place immediately after the parks officials' conference, and it is proposed that the convention should occupy one or two days.

Directly the date of the parks meeting is settled the time of the Dominion fish and game conference will be named. It is believed that it will be held in February.

TO MAKE CANADA GAME PARADISE

The main object of the Dominion-wide association would be to unite the provincial associations with the principal purpose of making Canada the richest country in the world in respect of wealth of fish and game life.

The proposed organization of the association has met with the support of the provincial associations with the principal purpose of making Canada the richest country in the world in respect of wealth of fish and game life.

The proposed organization of the association has met with the support of the provincial associations with the principal purpose of making Canada the richest country in the world in respect of wealth of fish and game life.

SKATING NOW ENJOYED AT BEAVER LAKE

Is Covered With Two Inches of Ice; No Skating Yet at Elk Lake

Many Skate at Rogers Pond; Ten or Twelve Degrees of Frost Predicted To-night

Recent cold weather has provided lots of splendid skating for Victorians. For the last three days hundreds of devotees of the steel blades have been enjoying this winter sport on various ponds located in the vicinity of the city. Last night nearly 200 glided over the smooth surface of Rogers Pond, located on Lake Road, Saanich.

A. H. Pease, who operates Hamlet's Lake, communicated with The Times this morning to the effect that there were two inches of ice over Beaver Lake. He had been out on the sheet to-day and after jumping on it.

ATTACK ON OAK BAY BY-LAWS

A. T. Goward and B.C.E.R. Move to Quash Bus Line Rules in Force Now

Oak Bay Ordered to Show Why Two By-laws Should Not Be Quashed

A. T. Goward, vice-president of the British Columbia Electric Railway, acting as a resident ratepayer of Oak Bay, took action in Supreme Court chambers before Mr. Justice Gregory this morning to attack Oak Bay by-laws affecting bus line transportation in that municipality.

An order was made by the court compelling Oak Bay municipality to show cause why by-laws No. 584 and No. 589, the Motor Vehicle Regulation By-law, 1929, and the Motor Vehicle Route By-law, 1929, respectively should not be quashed. Argument on the motion to quash the by-laws will take place before Mr. Justice Gregory in Supreme Court chambers on Thursday.

In moving on behalf of Mr. Goward and the B.C.E.R. Company Limited, for the show-cause order this morning H. G. S. Heisterman said it was within the right of any ratepayer to question the validity of any by-law of the municipality, on notice in writing as provided under various municipal measures. The order sought was one causing Oak Bay to show cause why the defending by-laws should not be quashed.

Mr. Justice Gregory: Apparently under this, you do not have to give any reason at all for a motion to quash.

PROHIBITORY BY-LAWS

Mr. Heisterman: My material includes the by-laws and the affidavit of A. T. Goward, as a property owner of Oak Bay. We say that the by-laws are invalid in that they seek to prevent the B.C.E.R. Company Limited from operating buses in Oak Bay, and we say that that cannot be accomplished by this means.

The application of Mr. Goward set up that the Veterans' Sightseeing & Transportation Company Limited were already in operation of a bus line in Oak Bay, from the city to that municipality, and that the B.C.E.R. were desirous of also establishing bus lines there. One line mentioned, would run from the city to Oak Bay, and others by way of feeder services to link up with the street railway system.

By-law No. 584 would prohibit the operation of these lines by the B.C.E.R. The application recited, and also the operation of any other bus service, other than that of the Blue Line, controlled by the Veterans' Sightseeing & Transportation Company Limited. On these and other grounds, Mr. Goward was moving as a property owner to quash the two by-laws mentioned.

Mr. Justice Gregory gave the order which instructs the municipality of Oak Bay to show cause why the by-laws should not be quashed. Argument on the application to quash was set for Thursday morning.

When Montreal Welcomed Smuts

Cities in the eastern United States have been hearing the League of Nations message of Gen. Jan Christian Smuts since the picture above was taken and he is about to sail from New York for home by way of Great Britain. The distinguished visitor was photographed at a Montreal railway station last week with Sir Herbert Baker (left) of London, Eng., and George Walton, general passenger agent of the Canadian Pacific Railway, Montreal.

Police Issue Warning To Ten Thousand Yet To Get Auto Licenses

Less Than Half of Victoria Car Owners Have Secured 1930 Plates

Officials State Prosecutions Will Be Launched After Wednesday

Between 10,000 and 11,000 motorists in Victoria and vicinity who have not yet obtained their 1930 licences face police court proceedings unless they secure the plates before midnight next Wednesday.

According to a rough check at Provincial headquarters this morning, in the neighborhood of 6,000 or 7,000 license plates have been issued since early in December when the department started to give out the 1930 plates. Victoria and district has about 17,000 automobile owners who must pay up during the next few days if they wish to avoid prosecution.

Chief of Police John Fry announced this morning that the city department would start to check up the licenses next Thursday morning, January 16. The customary fine for operation of cars without the new license plates after the fifteen days of grace allowed is \$5.

OTTAWA AIDS ST. LAWRENCE CANAL SCHEME

Premier King Says Ontario, Quebec and Dominion First to Agree

Replies to Conference Suggestion of Chambers of Commerce

Ottawa, Jan. 10.—That the Federal Government was anxious to see the St. Lawrence waterway developed, and to see the work done in such a way that the national interest would be the gainer, was a statement made here today by Premier King to a deputation from the Canadian Chamber of Commerce.

One of the suggestions made by the deputation was that the Federal Government call a conference "of representatives of the opposition parties in the Federal House and of the Provincial Governments in the hope that as a result of such conference a policy with regard to the St. Lawrence waterways may be evolved which will carry the united judgment of the people of Canada."

Mr. King expressed doubt as to the feasibility of this proposal.

TALK FOR PARLIAMENT

The St. Lawrence waterways problem was one he felt must be worked out by Parliament, said Mr. King, and he doubted whether its solution would be (Continued on Page 3)

Revelstoke, Tuesday, June 17—Criminal and civil.

Vernon, Tuesday, June 18—Criminal and civil.

LITTLE JOE

BRITAIN REDUCES CRUISERS

At London Conference Will Cut Demand From Seventy to Fifty

Alexander Says Lower Number Represents Minimum Needs at Present

Canadian Press

Sheffield, Eng., Jan. 10.—Right Hon. A. V. Alexander, First Lord of the Admiralty and one of the British delegates to the forthcoming Naval Disarmament Conference, announced in an address this evening that Great Britain would go to the conference prepared to agree to reduce her cruisers from seventy to fifty. The latter figure, he declared, represented the minimum needs of the Empire under present conditions.

Mr. Alexander said that while, after the Washington conference the Admiralty had agreed seventy cruisers were necessary for the defence of Great Britain's world-wide vital sea communications, "we now have taken into account the new situation which has arisen through signatures of the Pact of Paris outlawing war by most of the nations of the world."

POLICE CHIEF SAYS CRIME DECREASING

Vancouver Head Denies Charges Made Ex-Mayor Well Founded

Canadian Press

Vancouver, Jan. 10.—Dramatically "opposed" opinions were voiced today by ex-Mayor Louis D. Taylor and Chief of Police Bingham relative to crime and police force conditions in Vancouver.

In a signed article handed to a local newspaper, Mr. Taylor made an attack on the board of police commissioners. He does not blame the chief, but declares that for conditions now obtaining, some one is to blame and asks who it is.

Chief Bingham's reply was obtained in an interview after he had read the article in question.

Mr. Taylor said: "No citizens are safe on our streets."

"The accusation that vice and crime are on the increase," replied the chief, "is so far from the truth that one scarcely knows how to answer it. Figures prove it has decreased tremendously."

Mr. Taylor said the police force was demoralized.

"It is not," replied the chief. In all my police experience I have never dealt with a more loyal personnel."

The chief flatly denied Mr. Taylor's charge that the police commissioners handicapped him. "Nothing of the sort," he said. "For what has been done I accept full responsibility. I have been left entirely to my own devices."

Search Made For Body of Bridge River Indian

Lillooet, B.C., Jan. 10.—William Porter, an Indian, who is more than eighty years old and almost blind, is reported as missing for ten days from the Bridge River Reserve near here. He had been visiting friends and left for home late in the afternoon to go about two miles over a trail. Friends who went out to look for him next day found where he had hung up his blanket at a point on the trail. Off the trail they found his hat and a glove. A search party of seventeen Indians, all good hunters, has gone out to try to find the body, as he must have perished soon after leaving the trail. He may have wandered up the mountain or fallen into the Bridge River.

TWELVE KILLED IN TRAIN CRASH IN NORTH INDIA

Delhi, India, Jan. 10.—Twelve were killed and fourteen injured when the Peshawar Express collided with a freight train at Chatterbuckganj. Several passenger coaches were telescoped. An official inquiry will be begun.

CANADIAN—U.S. PLANE LINKS TO BE INCREASED

Intimation Given Vancouver Will Be Linked Up Before Long With Seattle-Victoria Service; Winnipeg-St. Paul Service To Be Started Soon as Possible; Lethbridge-Great Falls, Mont., Link Planned.

DUNCAN FIRE RESULTS IN BIG DAMAGE

Loss in Cowichan Merchants Ltd. Store Blaze Estimated at \$10,000

All Available Fire Equipment Used in Saving Valuable Structure

Special to The Times

Duncan, Jan. 10.—Damage estimated at approximately \$10,000 was done by fire which broke out at 11:30 o'clock last night and raged for five hours in the store of the Cowichan Merchants Limited, one of the largest department stores on the island north of Victoria.

The whole of the Duncan fire brigade, including twenty volunteer firemen, was engaged in the fight against the flames, made more difficult owing to huge volumes of smoke which engulfed nearly the whole structure. Meanwhile a large crowd of Duncan residents which was attracted by the flames, sat on the grassy slope of the burning building.

A rough survey of the damage this morning revealed that the stock suffered mostly through smoke and water. Lower floors of the building were eaten through by flames, however, and will have to be renewed.

It is believed the fire broke out in the basement, near the furnace. The alarm was turned in at 11:30 o'clock by James Davis, a resident of the town, who noticed smoke issuing from the place.

FOUR LINES USED

Within a short time, all available equipment was on the scene and four hose lines were connected up. Damage (Continued on Page 17)

NO FUNDS TO DOUKHOBORS

Vancouver, Jan. 10.—The city of Vancouver will have nothing to do with the 105 Doukhobors who are to be discharged from the Okanagan Jail about the middle of February, after serving six months for staging a nude parade at South Saanich.

Alderman W. C. Atherton, chairman of the civic relief committee, today said he intended to communicate with Victoria, telling the Provincial Government the city would not provide any maintenance for them.

NO DISCHARGE MONEY

"It is reported the Doukhobors will not be entitled to discharge money when they leave the prison, since they have refused to do any hard labor during their imprisonment. They will have, therefore, no cash to pay their fares back to Nelson."

"It is up to the Government," said Alderman Atherton, "to see to it that these people are returned to the interior. We cannot be expected to look after them."

SURVEY DISCLOSES PRAIRIE OPTIMISM

Winnipeg, Jan. 10.—Western Canada business did not suffer in 1929 to the extent of other years when lower grain yields meant a falling off of trade, says the Manitoba Free Press in its annual business survey of the last year. The Free Press survey of business conditions throughout the west has shown "that no longer is it possible glibly to classify conditions in western Canada as 'good' or 'bad,'" states the paper.

"The west has grown too large to be blanketed in such a way," it continues. "Notwithstanding the fact that the wheat crop of the three prairie provinces for 1929 has been estimated at 266,000,000 bushels as against 240,000,000 bushels in 1928, the survey shows there are areas enjoying exceptional prosperity."

MIXED FARMING

"There are areas where diversified activity is a guarantee against depression. There are mixed farming districts which are little affected by short grain crops."

The short grain crop in the past year is looked at as only a temporary setback in most sections of the prairie and preparation for another year are steadily going ahead, declared the Free Press.

Substantial building permits are given as evidence of prosperity.

SASKATCHEWAN CONDITIONS

Regarding Saskatchewan, where crops failures last fall were general, the paper comments:

"Even at points where crops returns were far from satisfactory, there is a spirit of optimism, which coupled with promising crop conditions in the spring, will have a favorable reaction on the trade of the respective districts."

HOCKEY PLAYER LOSES LIFE AS RESULT OF GAME

Edward Baker Dies of Head Injury at Niagara Falls

Niagara Falls, Ont., Jan. 10.—Edward Baker, twenty-five-year-old star defence man of the Niagara Falls Cataracts, died here this morning from injuries received in an International Hockey League game with Buffalo last night.

His skull was fractured in a collision with Lloyd Gross, a team mate, during the last period of the game. After the collision Baker got to his feet and skated from the ice unaided. He was taken to a hospital, where he died at 8 o'clock this morning.

Baker's home was in North Bay, Ont., where he learned the game. During his career as a player he starred with the North Bay junior team and also with St. Michael's College of Toronto. He came to Niagara Falls last November from Hamilton, where he played last winter.

NATIONAL RADIO SYSTEM URGED

Vancouver, Jan. 10.—The Vancouver Board of Trade has declared for nationalization of radio broadcasting in Canada. It was announced today by W. E. Payne, executive secretary.

LAIRD TOUR

Winnipeg, Jan. 10.—The seventh annual tour across Canada, conducted by Dean Sinclair Laird of Macdonald College, will leave Montreal July 20 of this year and will occupy twenty-two days, during which the party will travel to Vancouver and back by special Canadian Pacific train. Their journey of some 6,000 miles will take them through the rich industrial and agricultural country of Ontario and the prairies and through the Rocky Mountains. Vancouver Island will be visited. Stops will be made at the important cities and towns, noted beauty spots, wheat and fruit growing centres and ports on the Pacific and Great Lakes.

Beauty experts say that Roumanian women have the prettiest feet in the world and Polish women the prettiest hands.

A HEAVY MEAL ACUTE INDIGESTION SUDDEN DEATH!

Called "Heart Failure," But Cause Is Stomach Acidity—Gastric

Thousands of folks think they have Heart Trouble and live in constant fear of a sudden end, when, as a matter of fact their trouble simply is caused by an excess of acid in the stomach. When your stomach is full of acid the slightest bit of food sets up a fermentation, it causes bloating and gas—the stomach distends and crowds the heart—and palpitation, shortness of breath, difficult breathing, pressure, dizziness and a feeling of exhaustion and oppression follows—a highly uncomfortable and often really dangerous condition, but not heart trouble! You can prove this in three minutes. From any food, drink, obtain some pure Bismarck Magnesia (either powder or tablet) and take a little in water after your next meal. Watch results. If the heart symptoms you fear fail to appear, you have found your real trouble—stomach hyper-acidity—and this condition Bismarck Magnesia is guaranteed to stop. There is nothing better, safer, surer for acid-caused digestive troubles, and a single trial proves its value. Try it.

POLICE REPORT OF OAK BAY IS SATISFACTORY

No Serious Crime in Municipality During Year, Chief of Police Reports

Destruction of Arena Made Fire Losses For Year Greatest on Record

Showing a large increase in collections over previous years and stressing the fact that no serious crime has been committed in the municipality during the year, the annual report of Chief of Police John Symes of Oak Bay, was read to the council at its regular meeting yesterday. The report was received by Reeve Hayward and the councillors.

The chief reported that 192 cases, an increase of twenty-four over 1928, had been dealt with in the police court. These were mainly for infractions of the Motor Vehicle Act and Traffic By-laws. Property valued at \$1,843.73 was reported stolen, and of that amount \$1,443.00 was recovered by the police and returned to the owners. The value of property stolen during the year showed a substantial reduction from 1928, when the figures were: Stolen, \$3,480.25; recovered, \$2,909.25.

Following is a table of convictions: Motor Vehicle Act 101, Streets and Traffic By-laws 60, Fire Regulation By-laws 6, Weights and Measures 4, Firearms By-law 3, Possession of Firearms 1, Radio Telegraph Act 1, Stealing 1, Vagrancy 1.

Total 173

MONEY COLLECTED

Trade licenses \$1,605.00
Police Court fines 1,443.00
Dog licenses 948.00
Poll tax 125.90
Milk vendors' licenses 88.00
Road tax 68.00
Motor vehicle licenses 47.00

Total \$4,324.00

The collections are the largest on record, and show an increase of \$696 over 1928, the previous highest year.

FIRE DEPARTMENT

The fire department and the police attended to thirty-nine fire alarms during the year.

The fire loss for 1929 was the greatest on record and amounted to \$111,443 on buildings and \$13,700 on contents. The huge loss is directly attributable to the outbreak of the Arena fire in the month of November, and eleven other conflagrations caused by flying burning tar paper and lumber from the arena fire. The total loss in the arena fire, and at fires in the immediate vicinity, amounted to \$121,875.

Chief Symes in his report that the large public building should be allowed to be built of other than fire-resisting material.

Chief Symes in company with Dr. W. P. Walker, inspected all dairies and issued to forty-one distributors of milk, under the supervision of the Provincial inspectors, a better grade of milk has been secured; twenty-nine distributors received Grade A and twelve Grade B certificates.

MOTOR TRAFFIC

The chief reported there had been a great increase in motor traffic during the year, but accidents had been fewer than in 1928, and the number of persons injured in motor accidents had not increased. This had been accomplished by a strict supervision of motor traffic. Constables have been ordered to check up on all infractions of the Motor Vehicle Act whenever found, not so much in taking proceedings against offenders, but more as a motorist of bringing to the notice of motorists the necessity for due observance of the law and also to safeguard themselves and other motorists. That this has been done is shown in the number of persons warned, and those prosecuted. There had been a number of convictions for driving to the common danger, speeds of fifty to sixty-five per hour having been checked by the motor cycle constables.

Throughout the year the department has received the fullest co-operation from all neighboring police departments to whom my thanks are due. The chief referred to the improvements made in safeguarding motorists and pedestrians by the work done by the engineer's department in painting stop sign marks on streets, widening and rounding street curves, and posting signs at public and private schools, all of which are combining to lessen the degree of street accidents.

LAND SURVEYORS CHOSE LEADERS

Vancouver, Jan. 10.—At the twenty-fifth annual meeting of the Corporation of British Columbia Land Surveyors here yesterday, the following officers were elected: J. Davidson, Vancouver, president; J. T. Underhill, Vancouver, vice-president; A. S. O. Musgrave, Victoria, secretary; to succeed: directors, D. J. McGowan, C. S. Boulton, Vancouver; E. H. Burden, Port George; J. B. Owen, Duncan; F. C. Barnard, Victoria; and R. P. Bishop, Vancouver. J. E. Umbach, surveyor-general, Victoria, is a director ex-officio.

TELLS WHY HE INVESTS HIS MONEY IN CANADA

Toronto, Jan. 10.—An American investor, writing to The Financial Post from a Pennsylvania city, declares that he has more money invested in Canada than in his own country. He gives these reasons: 1. Canada, with two railroad systems, has a settled policy. In the United States, government bureaucrats play with vast private railroad investments like children with mud pies.

2. The frailties of human nature make impossible a perfect solution of the liquor problem. Likewise our modern industrial life demands alcohol for industrial fabrics.

3. Canada has a fine branch banking system that can provide a little prairie town with safe and inexpensive banking service. This system can check the unwise expansion of credit that produces panics.

4. The Senate of Canada, the judiciary and the criminal procedure are superior to those of Canada's southern neighbor.

BUILDING PLAN TAKES NOTE OF YEARS TO COME

Saanich Trustees Explain How \$120,000 Will Satisfy School Requirements

All Districts Served at Less Cost Than Involved By New High School

Stating that the Saanich School Board had adopted, as the best means of providing the municipality with adequate school facilities, a carefully-planned expansion and development of measures originally devised to fill an emergency, Trustee Frank V. Hobbs last night at Royal Oak School told an audience of Ward Five ratepayers that the school needs of Saanich would be satisfied for many years if the ratepayers approved the two money by-laws, aggregating nearly \$120,000, at the municipal elections on January 18.

Trustee V. Hobbs said that the plan to take over Toimile Graded School for the purpose of building a new high school was based on the fact that the present high school was a brick building, capable of expansion at a comparatively low cost, and the council had, at a joint meeting, unanimously preferred a permanent brick high school to earlier proposals for construction of a frame stucco building. The location was selected on the basis of population, transportation being eliminated for the great majority of the 300 students to be accommodated next September. A new graded school would have to be provided for displaced pupils, and the cost of the new school would be considerable, and would be erected nearby if the by-laws were approved.

Trustee V. Hobbs discussed the great cost of the school, and the fact that the development of the building proposals now before the ratepayers of Saanich.

MUCH FOR LITTLE

While it was the opinion of some people that a suitable high school was not necessary in the present neighborhood of \$150,000, he would try and show them that they could get a high school, an elementary school, a small high school and several additions to other schools for much less. The programme of the board had been referred to as a piecemeal and patchwork proposition. It was better to be long-sighted than short-sighted. In looking over the schools, the lack of vision was apparent. The programme as proposed had not been arrived at hastily, but after long and earnest consideration. The high school at the north end was a necessity for the people there, who had been laboring under a great disability in the past. "The best thing we can do for our children," continued Trustee V. Hobbs, "is to give them a good education. This was many claimed that Victoria High School was not a success. I agree. It was more like a mechanical institution, which turned out pupils like a machine. Large schools are not always good schools. They lack the personal contact."

H. L. Briggs of Glenford Avenue, candidate for election as trustee, introduced himself and told of his experience as teacher in Ontario and school trustee in Alberta.

The adjournment was preceded by a vote of thanks from the audience to the speakers.

Move to Increase B.C. Employment

Vancouver, Jan. 10.—A conference of Federal, provincial and municipal authorities to discuss the unemployment situation in Greater Vancouver has been set for next Tuesday afternoon in the Board of Trade rooms here. Acting Mayor C. N. Fraser has asked Premier King to send an official of the Federal Government as delegate to the meeting, and Hon. W. A. McKenzie, Provincial Minister of Labour, is expected to attend from Victoria. Invitations have been extended in behalf of the City Council to all Federal and Provincial members in British Columbia to participate in the discussion. Reeves of neighboring municipalities also are invited.

PROVED AND APPROVED BY 4 GENERATIONS
SCOTT'S EMULSION

REPORTS GIVEN TO WARD SIX

Councillor Hagan and H. E. Tanner Review Year's Work

Secession Campaign Credited With Prospect of Reduced Land Taxes

The annual meeting of the Saanich Ward Six Ratepayers' Association was held last night at the Keating Temperance Hall, with R. P. Johnston in the chair, and H. E. Tanner, Councillor Hagan, president and secretary. The executive for the coming year will be H. E. Tanner, W. D. Mitchell and Councillor L. C. Hagan, who was instructed to present a petition for the office of president and secretary. Councillor Hagan discussed secession, taxation and the school loan by-laws to be voted on next week. He regretted the failure of the rural wards to obtain secession, believed that the movement to attain a Greater Victoria had been set back many years, and complained that taxation inequalities, as between urban and rural areas, had yet to be solved.

PAY-AS-YOU-GO

The building requirements of the school board should be provided from revenue, Councillor Hagan considered, protesting against the cost of loans. He pointed out that Saanich had paid off her public debt and an annual saving of nearly \$60,000 could be diverted to school buildings extended over several years, without materially increasing the tax rate.

SECESSION REPORT

H. E. Tanner gave a summary of the labors of the legislative committee which had managed the campaign for secession from Saanich of the rural areas. Much money had been expended in the effort to attain secession to unorganized territory. He read parts of Judge Lampman's report, maintained that His Honor had upheld the justice of the rural viewpoint and expressed disappointment with the delayed ruling of the Government against secession.

MUCH GAINED

The campaign had been successful in bringing large benefits, the promise of Premier Tomin to relieve Saanich of much of the cost of the main highways being of importance. Mr. Tanner pointed out that the secession campaign had been a great help to agriculturalists.

The cost of education was pointed to as being one of the most serious burdens on land, and Mr. Tanner was confident that the efforts of Hon. J. Hinchliffe to remove a part of that burden would be fruitful.

Any legislation benefiting Saanich would have to be drafted with attention to the effect in other parts of the Province, and this was a basic cause of the caution with which the matter was being approached, he believed. Nevertheless, much benefit could reasonably be anticipated as the outcome of the agitation for secession.

Contributions towards the cost of council were \$2,216.68. There was \$500, Ward Five \$229 and Ward Four \$498.

KINSMEN START WORK OF YEAR

Dr. Stanley F. Miles Named New President; District Governor Speaks

Steady growth in the organization of Kinsmen clubs throughout Canada was reported by James Hutchison, Vancouver, governor of district No. 4, at the annual meeting of the Victoria Club in the Empress Hotel last night.

The number and membership of clubs in the Dominion had trebled within the last ten years, Mr. Hutchison said. He forecast the formation of Kinsmen Clubs in Nanaimo, New Westminster and Nelson within a short time, and congratulated the local club on the high standard of its membership and the splendid service it was doing for the community.

OFFICERS ELECTED

Dr. Stanley F. Miles is the leader of the club for 1930. He was elected by acclamation to the president's chair last night, succeeding R. A. Wootton. Ernest L. Stock was named vice-president, Herbert Sabiston secretary and Maurice Green assistant secretary. Dr. B. E. Nickells was elected treasurer and the three directors chosen were Stanley Martin, Dr. Arthur Poyntz and Patrick Mulcahy. R. P. Butchart and A. J. Helmcken were elected honorary members.

The Kinsmen Club will make a big effort to have the first convention of district No. 4 in this city in the spring. R. A. Wootton was chosen a delegate to attend a meeting of the district executive in Vancouver to-morrow night and was instructed to extend an invitation to the district to meet here.

PRESIDENT HONORED

In appreciation of his untiring work as president of the club, Mr. Wootton was the recipient of a handsome engraved gold pocket watch, the presentation being made on behalf of the club by Past President Walter Miles. A report covering the principal activities of the Kinsmen Club during 1929 was submitted by Mr. Stock, the retiring secretary. He recalled that the club had given material assistance in collecting funds for the blind, and had made a donation to the Friendly Help Association. The club took a keen interest in civic affairs, and in the Victoria Day parade entered a Kinsmen float, which was awarded a special prize. An outstanding event of the

year was the visit which Harold Rogers of Hamilton, Ont., the founder of the Kinsmen movement, paid to the Victoria club.

NET DEBT CUT AND REVENUES SHOW INCREASE

Dominion Finance Statement Gives Standing as Year Begins

Ottawa, Jan. 10.—The three-quarter mark in the present fiscal year finds Canada with increased revenues, increased expenditures and a substantial drop in the net debt of the Dominion.

A financial statement issued yesterday through the Department of Finance shows total ordinary revenue of the Dominion amounting to \$351,287,325 for the nine months of the present fiscal year which passed December 31 last. For the corresponding nine-month period of the preceding fiscal year ordinary revenue totaled \$345,283,544. The increase therefore amounted to \$6,003,781.

Ordinary expenditure of the Dominion for the nine months just closed amounted to \$285,141,767, or \$14,220,835 more than during the corresponding period a year ago. It is pointed out to-day's statement represents only the receipts and payments which have passed through the books of the Finance Department up to the last day of December.

The net debt of the Dominion on December 1 last amounted to \$21,590,214.70. On December 31, 1929, the total net debt was \$22,608,484. There was consequently a decrease amounting to \$1,018,269.30 on the basis of the figures presented.

SALES TAX REVENUE

months just ended was \$142,761,836 as

will be a considerable loss to the revenues of Canada during the year as a result of sales tax reductions. The total collection of excise taxes (sales tax, stamp taxes, etc.), up to the end of December last, was \$45,222,562, as compared with \$37,522,222 at the end of December, 1928. This is a falling off of \$7,700,340. Increases are recorded in revenues derived from customs, excise duties and income tax.

The customs revenue for the nine months just ended was \$142,701,836 as against \$139,388,474 in the corresponding nine months of the year ago. This is an increase of \$3,313,362.

Excise duties turned into the treasury \$52,130,123, as compared with \$49,427,988, or an appreciation of \$2,702,135.

Income tax collections in the nine months period of the present fiscal year amounted to \$66,587,505, or an increase of \$9,941,894 over the figures for the nine-month period of 1928-29. Up to the end of December, Canada paid \$102,681,004 in interest on the public debt. During the corresponding nine months of 1928-29 this total was \$104,816,140.

INCREASE IN CANADA'S TRADE WITH U.S. SEEN

Trade With Great Britain in Year Ended With November \$507,540,632

Ottawa, Jan. 10.—A falling off in trade with the United Kingdom amounting to \$143,207,113, and an increase in trade with the United States amounting to \$182,855,326, are recorded in a review of the Dominion Bureau of Statistics for the twelve months ended November 30 last.

Total trade with the United Kingdom amounted to \$507,540,632, of which \$196,657,087 represented imports, while trade with the United States amounted to \$1,455,194,345, with imports accounting for \$692,801,304. Canadian exports to the United

Kingdom realized the sum of \$368,230,009, while exports to the United States were valued at \$529,379,733. The former figure represented a decrease of \$49,772,749 from 1928, while the latter represented an increase of \$41,169,495.

CONTRACTS AWARDED

Vancouver, Jan. 10.—Twelve of the principal sub-trades contracts of the \$1,750,000 sewerage of the Royal Bank of Canada to be erected at the northeast corner of Granville and Hastings Street here have been awarded to local firms, according to an announcement by J. E. Burke, vice-president and British Columbia manager of the Carter-Hall-Adinger Co. Limited, general contractors. These sub-trades will do work involving expenditures totaling approximately \$32,000, of which \$66,500 goes to Vancouver firms.

CUT THIS OUT

OLD ENGLISH RECIPES FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Snuffs, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear, which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs, which is equally as dangerous. The following formula, which is used extensively in the famous English clinics, is a constitutional treatment and should especially efficacious to sufferers here who live under more favorable climatic conditions. Secure from your druggist 1 ounce of Parmitin (Double strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Gleeed nostrils should be kept open, the breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmitin in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.

ANTI-LIQUOR GROUP FORMS NEW B.C. PARTY

Prohibitionists Meet in Vancouver To-night to Launch Party in Politics

Vancouver, Jan. 10.—Prohibitionists plan to form a political party in British Columbia.

For All KIDNEY DISORDERS

Robert Bolam, for many years associated with the prohibition movement, announced to-day that a meeting for that purpose would be held in the Women's Building on Thursday Street here at 8 o'clock this evening.

No committees or officers had yet been chosen, but steps to this end may be taken to-night.

"We are tired of talking dry and voting wet," he said. "We have no hope with the old parties, both of which are dominated by the liquor interests. So we intend to form our own political party and run our candidates, pledged to enactment and enforcement of some dry prohibition. It will take some time to get results, but we are organizing on a permanent basis."

SKATING NOW ENJOYED AT
BEAVER LAKE

(Continued From Page 1)

found it thick enough for skating. This will provide a fine sheet of ice and no doubt hundreds of skaters will avail themselves of it to-night.

As yet Elk Lake has not frozen over enough for skating, but with the weather man predicting ten or twelve degrees of frost to-night it is possible this stretch of water will freeze over by to-morrow and provide some fine skating, such as was enjoyed last year.

No skating is being allowed on the pond at Beacon Hill, the police keeping all children off the lake. This action is being taken in order to prevent any fatalities such as have resulted in former years.

Large numbers of youngsters can be seen skating on small stretches of water in many parts of Saanich and Cedar Hill.

Should the present cold spell con-

tinue for much longer it is quite possible that Portage Inlet will freeze over. Last year the inlet froze for a few days, but three or four years ago a sheet of ice two or three miles long provided some of the best outdoor skating enjoyed here in many years.

Twelve Arrested After Disturbing Court in India

Lahore, India, Jan. 10.—(Canadian Press Cable via Reuters).—Twelve Indians were arrested in the precincts of the high court here yesterday after an exciting scene. Two others had begun an appeal against conviction for throwing bombs in the attack in the Legislative Assembly nearly a year ago and were leaving the court when the twelve Indians commenced to shout "Long live the Revolution."

South Africa And France Discussing Trade Agreement

Pretoria, S.A., Jan. 10.—(Canadian Press Cable via Reuters).—It is considered in official circles there is every likelihood of the conclusion of a trade agreement between the Union of South Africa and France. Negotiations have been under way for some time, and it is understood France has offered reductions in tariffs for a number of South African products.

POSITION OF INDIA HOUSE NOT YET CLEAR

Indications Awaited as to How Many Nationalist Party Members Will Resign

Canadian Press Cable Via Reuters. Delhi, India, Jan. 10.—Changes in the complexion of the Indian Legislative Assembly as the result of the action of the all-India Nationalist Congress are becoming of the greatest concern in political circles.

The whole situation, beclouded now, hinges on the action to be taken by President Patel of the Legislative Assembly if the inevitable miniature general election is brought about by wholesale resignations from the Assembly as demanded by the Nationalist Congress.

The mandate of the Congress is not generally considered applicable to Patel, but he will consult party leaders on the action to be taken.

As regards the complexion of the Assembly, the most important aspect will be the dissolution of the opposition party and its replacement by a new group. The independent Mohammedan Party, which is conceded support of the Congress, is likely to become the official opposition.

There is a possibility the by-elections may be delayed until February.

ESTIMATE MADE OF CANADA'S EXPORT WHEAT

Grain Board Statistician Now
Puts Total at 145,000,000
Bushels

This Is 20,000,000 Bushels
More Than at This Time
Year Ago

Port William, Ont., Jan. 10.—There are about 20,000,000 bushels more of wheat available for export from Canada than a year ago. This is indicated in a report issued by E. A. Ursell, statistician of the Grain Board of Canada. The statistician, however, suggests there are still certain unfavorable conditions which may effect the demand in Europe, the financial situation and heavy import duties.

Out of a total wheat crop in the three prairie provinces, officially estimated at 271,607,000 bushels, in addition to 5,817,400 bushels of the 1928 crop remaining in farmers' hands on July 31 last, the deliveries at country points, including platform loadings to the end of December totaled slightly more than 207,800,000 bushels.

Allowing approximately 2,500,000 bushels for seed and purely local milling requirements, the report states there would appear to be slightly more than 27,000,000 bushels remaining in farmers' hands for marketing. The amount available for export as wheat or wheat or wheat flour is estimated at 145,000,000 bushels, or about 20,000,000 bushels less than the exports during January to July, 1929.

OTTAWA AIDS ST. LAW- RENCE CANAL SCHEME

(Continued From Page 1)

accelerated by calling in opposition parties. To tell the British system, which required that a government formulate a policy and lay it before Parliament for its consideration, was a sound one.

Mr. King told the deputation a conference would take place between the Premiers of Ontario, Quebec and himself in the near future on the water power problem.

J. H. Woods of Calgary, president of the Chamber of Commerce, suggested to the Prime Minister that other parts of Canada as well as Ontario and Quebec were interested in the St. Lawrence development.

COMMON GROUNDS

Mr. King agreed with this. He felt, however, that no very great progress could be made until there were common grounds between Ontario, Quebec and the Dominion.

The Premier said his reference to the St. Lawrence was the only criticism he could voice on the memorandum submitted by the Chamber of Commerce.

The suggestions were valuable and the Government had already given consideration to the St. Lawrence. He stressed the fact that the Government had very much at heart the development of Europe's trade. Business men of Canada could do much to develop this.

The deputation represented 180 boards of trade located throughout Canada. President Woods was the spokesman.

Ottawa, Jan. 10.—A deputation from the Canadian Chamber of Commerce waited on Premier King and members of his Cabinet to-day. The views were presented in pursuance of resolutions passed and subjects discussed at the annual convention held in Calgary last summer, as well as decisions reached by the national executive since that time.

The deputation was headed by J. H. Woods of Calgary, president.

The suggestions to the Government were submitted in the form of a memorandum as follows:

"1. Further conservation and development of our fisheries.

"2. The desirability of commemorating Thanksgiving Day apart from Armistice Day, and preferably on the second Monday in October.

"3. The calling into conference with the Dominion Government of representatives of the opposition parties in the Federal House and of the Provincial Government in the hope that a result of such conference a policy with regard to the St. Lawrence waterway may be evolved which will carry the united judgment of the people of Canada.

"4. Further implementation of the Duncan report.

INCOME TAX

"5. The further reduction of the income tax and sales tax as and when warranted by the Dominion's finances, and the avoidance of duplicative taxation.

"6. Payment of interest on moneys held by the Government which are refundable to citizens.

"7. More adequate remuneration of judges.

"8. The continuance of the co-operation of the Federal Government in the solving of seasonal unemployment, especially with respect to the promotion of public works during such periods.

"9. Completion of a national highway through the effective co-operation of the provinces and the Federal Government.

PEACE RIVER DEVELOPMENT

"10. The development of the Peace River country by the construction of branch lines and the early completion of a direct outlet to the Pacific Coast. In this connection we are particularly anxious to see the Government take practical steps are taken by the Government to promote a greater flow of commerce between the various parts of the Empire provided the economic life of the Dominion be not prejudiced.

"We should also like to point out that the Chamber of Commerce favors the appointment of a national committee of inquiry on calendar reform as recommended by the League of Nations; the amendment of the Criminal Code to restrict further the practices of fraudulent and misleading advertising; the passing of a carriage-of-goods by sea in harmony with the Carriage of Goods by Sea Act, 1924.

WINTER WORK

"We have urged upon our boards and chambers the advisability of attempting to find useful work for the locally unemployed during the winter months, and the starting of construction and renovating activities which would normally be allowed to remain over until spring.

ENFORCE TRADE

"With the encouragement of yourself and other members of the Cabinet, the Canadian Chamber of Commerce has set up an outstanding national committee of business men headed by J. H. Gundy, which is now engaged in exploring ways and means of improving our imperial economic relations and which committee it is intended will confer with similar committees from other parts of the Empire.

TRADE MISSIONS

"The chairman of our executive committee, Dr. J. W. Ross, undertook and accomplished a successful goodwill trade mission to the British West Indies last spring, and we are now organizing a business delegation to Great Britain for May, to the Orient for October, and to Latin-America for 1931. Furthermore, invitations are being addressed to a carefully selected number of business men in Central and South America to visit the Dominion next year, under our auspices, to see our Canadian development and to learn at first hand the opportunities for reciprocal trade."

THE FARMERS STAND FIRM

MANITOBA'S ORGANIZED AGRARIANS, in annual session at Brandon yesterday, restated their request for lower duties on foreign imports and on imports from Great Britain. That is to say, they want the general tariff schedule scaled downward and the British Preference increased.

There is more in this reaffirmation of the farmers' policy than its bald terms imply. The report of the proceedings at the Brandon gathering will be far from pleasant reading for Mr. Bennett as he journeys westward on his second speaking tour within a very few months. He has been predicting, and the newspapers which support him have waxed enthusiastic about it, that the west would surprise Mr. Mackenzie King at the next general election. In his opinion, and in the opinion of his journalistic friends, the defeat of the Gardiner government in Saskatchewan marked the birth of a new political consciousness in the matter of the tariff as far as it concerned the west. It was interpreted as an indication that after the next general election Mr. Bennett would by no means be the only Conservative in the House of Commons from the prairie provinces. At present, out of a representation of fifty-four, fifty-three support the policy outlined at Brandon yesterday, the policy to which Mr. Bennett and his party are implacably opposed.

It will be recalled, of course, that Premier King several times has announced that his government intends still further to increase the British Preference—which means the Canadian consumer would have to pay lower duties on goods imported into this country from Great Britain—and continue to pursue a tariff policy that will produce the greatest benefit for the country as a whole.

In the light of these facts, therefore, the reaffirmation of the farmers' attitude towards the Dominion's tariff policies will not furnish Mr. Bennett with much ground for predicting any acquisition of support in the prairie provinces.

THE PROBLEM OF INDIA

IT IS UNFORTUNATE THAT JUST AT a time when the statesmen of Great Britain are preparing for the momentous five-power naval disarmament conference the ever-present problem of India and her future should obtrude itself in the most sinister manner since the Sepoy mutiny.

What proportion of India's 320,000,000 population is really interested in the country's constitutional development is not at all clear. It is well known, of course, that the vast majority is unlettered and ignorant, neither knowing nor caring very much about what has been taking place at the Nationalist gathering at Lahore. But there is an influential minority, with able, practical leaders—not a few of them the product of British universities—supported also by a few impractical idealists, that obviously is a force to be reckoned with.

This minority is composed of two schools. One demands Dominion status on the same basis as the self-governing nations within the empire. The other insists upon complete independence, and proposes to try to obtain it by boycott and resistance to paying taxes. In the main principle the situation in India at the present time is somewhat similar to that which kept Ireland in turmoil for so many years. If differs in respect of the size of the population, creeds and castes; but at the root is the demand for self-government. Nor is this principle in conflict with the ultimate policy intended for India by the British government.

The London Times refers to Lord Irwin's famous pronouncement, in which he says: "I am authorized on behalf of His Majesty's government to state clearly that in their judgment it is implicit in the declaration of 1917 that the natural issue of India's constitutional progress, as there contemplated, is the attainment of Dominion status." We then read:

"For the last ten years—ever since the debates on the Government of India Bill in 1910—there has been no difference in the language held on that subject by Englishmen of every party. Mr. Montagu described it during the second reading of the bill as the opportunity of Indians to control their own destinies, and Sir Donald Macleay spoke on the same occasion of the future of India within the circle of the British Dominions. The Governor-General's own instructions, framed in the same year, set out, as he recalls this morning, the royal will and pleasure that by the progressive realization of responsible government... British India may attain its due place among our Dominions. The Duke of Connaught, inaugurating the new regime at Delhi two years later, bore a message from the King which wished for India 'progress to the liberty which many other Dominions enjoy.' Lord Reading, who was at that time Viceroy, was speaking soon afterward of 'that high destiny which awaits India as a partner in the British Empire.' Lord Oliver, as Secretary of State in 1924, suggested that 'the peoples of India might eventually take their place alongside the other nations in the British Commonwealth.' Lord Birkenhead himself, following him in the same high office, expressed his desire for 'the progressive realization of responsible government in British India as an integral part of the empire' and foreboded more precisely the previous promise of a constitution which might bring India on equal terms as an 'honoured partner into that free community of British Dominions which men knew as the empire.' Finally Mr. Baldwin, as Prime Minister, added that 'in the fulness of time we look forward to seeing India in equal partnership with the Dominions.'"

Complete independence of British rule, of course, is a different matter altogether. Were India to cut loose from the empire at this juncture, her vast population soon would split up, and internal strife undoubtedly would develop. Dominion status, applicable to Indian conditions, as already recognized by the British government, would seem to be the final solution of the problem.

MINERAL PRODUCTION OF CANADA

IN 1929, FOR THE FOURTH YEAR IN succession, the mining industry of Canada reached a new high record output, when the value of production amounted to \$303,876,000, or 10.5 per cent. more than in the preceding year, according to the official estimate compiled by Mr. S. J. Cook, chief of the Mining, Metallurgical and Chemical Branch of the Dominion Bureau of Statistics at Ottawa, and published in a preliminary report recently issued by the bureau.

During the year new records were established in the output of asbestos, cement, clay products, copper, gold, gypsum, lime, nickel, petroleum, salt, stone, sand and gravel, zinc, and in the value of natural gas. The total increase in the value of the mineral output in 1929 over 1928 was \$28,887,000.

Metals as a group showed the greatest gain at a total of \$151,327,000, as compared with \$132,012,454 in 1928. This was a gain of \$19,315,000, or 14.63 per cent. Fuels at \$76,116,000, as compared with \$74,413,160 in the preceding year, showed a net gain of three per cent., or \$1,703,000. Other non-metals had a value of \$21,205,000, as against \$18,826,692 in the preceding year. The gain in this section was 12.6 per cent., or \$2,378,000. Sifted materials, including brick, tile, cement, lime, stone, sand and gravel, valued at \$55,228,000, as compared with \$49,737,181 in 1928, showed a gain of eleven per cent., or \$5,491,000.

In order of total values, the leading mineral products of Canada are: Coal, copper, gold, nickel, cement, lead, asbestos, clay products, silver, zinc, stone, natural gas, sand and gravel, lime, petroleum, gypsum, cobalt, salt, and platinum metals. This list of nineteen products includes all that reach an output value of \$1,000,000 or over annually. Together they make up about ninety-eight per cent. of the total value of Canada's mineral production. In addition to these main products, about fifty other minerals were recovered in commercial quantities during the year.

Canada produces ninety per cent. of the world's nickel, eighty-five per cent. of the world's asbestos, fifty-five per cent. of the world's cobalt, nine per cent. of the world's gold, 8.7 per cent. of the world's lead, 8.4 per cent. of the world's silver, 6.4 per cent. of the world's zinc, and four per cent. of the world's copper.

RECORD SERVICE

THE TIMES CONGRATULATES MR. George Jay upon his election for the twenty-first year in succession to the chairmanship of the Board of School Trustees, and his colleagues upon the wisdom of their choice. We believe we are safe in saying that this is a record for Victoria—and it very probably is a record for the Dominion.

This annual honor undoubtedly is very highly prized by Mr. Jay; and it is an honor well deserved. During the years in which he has given unstintingly of his time and talents to the public service as a member of the board, he has adopted a uniformly progressive stand, while the soundness of his judgment on many occasions has been a sure guide to younger and less experienced members of the board.

WHAT OTHER PAPERS SAY

Maybe the truth could be popularized by dressing it up to look like falsehood.—Ottawa Citizen.

They say the wrist watch was invented by a Scotsman who objected to taking anything out of his pocket.—Judge.

When a man attempts to interfere with the affairs of a woman the best he can expect to get is the worst of it.—Chicago Daily News.

This is the season when summer boarders at the farm enjoy their 9 o'clock breakfast at the same time that the family are having their mid-day meal.—St. Catharines Standard.

Nothing more is heard about "the whisper of death" from The Montreal Star. "We are all more or less conscious," says that paper, "that Canada is prosperous and progressing, but how great the prosperity and how swift the progress we realize only when somebody compiles the statistics" which demonstrate it.—Toronto Star.

SHIPS AND STEERS

The Providence Journal

In Chicago last Tuesday the "grand champion steer" of the Livestock Show was sold after spirited bidding for \$7,837. Only the previous evening in New York a full-rigged 3,000-ton clipper ship was knocked down to the single bidder at the extraordinary price of \$1,000. Found for pound, as reflected in the two sales, the steer sold for 33,600 times as much as the ship.

LOOKING AHEAD

The Washington Post

The test of the wisdom of tax reduction will come next year. The Treasury is on record as attributing the large tax collections of recent years largely to profits taken from the stock market. It follows that the losses suffered on every hand in the last few weeks will be followed by a decrease in tax collections. The Treasury, however, is relying upon the ten months of great activity that business has enjoyed so far this year as a counter-balance against the losses that will be written off as a result of the market collapse. This is logical reasoning. But what about next year? It may be that industry, as a result of the decreased power of a large body of the people, is facing a period of curtailed activity.

FORESTRY RESEARCH NEEDED

The Brandon Sun

The most pressing forest problem in Canada appears to be the regeneration of forest types under the varied conditions found between Nova Scotia and British Columbia. While scientific methods have long been defined in parts of Europe, similar treatment is not applicable in Canada, where logging practice and market requirements, as well as tree species, soil and climatic conditions, vary radically. The scientific study of the art of growing forests must be developed specially in the case of Canada. Only by experiment and research can the factors which control the regeneration of Canadian species in the widely different sites and types be determined. This predicated the establishment of experimental cutting areas on which certain well-known methods and variations of them to suit conditions of utilization would be employed in removing the mature crop.

A THOUGHT

As saith the proverb of the ancients, wickedness proceedeth from the wicked.—Samuel xiv 12.
The wickedness of the few makes the calamity of the many.—Publius Syrus.

Loose Ends

Ivan Petrovich has an adventure—from which a profound moral is drawn—concerning test tubes and telescopes—while the experts give us only one chance in forty billion.

By H. B. W.

IN RUSSIA a few days ago Ivan Petrovich had a great adventure, and his adventure in a strange way, is common to us all. To understand what happened to Ivan Petrovich you must know that, according to Walter Duranty, Moscow correspondent of The New York Times, in a small Siberian village it was proposed to convert the church into a storehouse for grain. Some of the older peasants, being devoted worshippers at the church, opposed this sacrilege and selected Ivan Petrovich to go to Moscow to protest against it. Accordingly Ivan set off on foot and traveled about 150 miles to the nearest railway where, as it happened, there was a military post. As the train would not leave until the next day the old man staid down to a field where a curious crowd was collected near a shiny metal object, the like of which he had never seen and which emitted a loud roaring noise. One of the aeroplane pilots asked Ivan if he would like to go for a night and, bewitched by all the noise and excitement, the old man got into the plane, but explained that he was going to Moscow "because there are some foolish young men in the village who say there is no God in Heaven and that we must turn the church into a storehouse."

LESS THAN an hour later, as the plane roared through the clear winter air, Ivan looked down and to his amazement saw below his own village, the church with its blue dome, the priest's house and his own red-roofed cottage. Soon they were back at the railway station again and Ivan was helped out by admiring peasants. Without a word to anyone he set out on foot for his own village. When he arrived home his friends demanded indignantly why he had not gone to Moscow to protest about the church. Said he: "I went right up to Heaven and they are right, these young ones. There is no God. There is nothing but empty space. I saw the village from the sky, making a week's journey in two hours. Let me tell you about it."

THIS RATHER tragic little story is being told to illustrate the amazing ignorance of the Russian peasant, who suddenly and without preparation for it, finds himself plunged into a civilization which he has never heard of before. It illustrates that, perhaps it illustrates something much more important to us. The Ivan Petrovichs are not confined to the peasantry of Russia. They are everywhere. Indeed you might say that the average man is an Ivan Petrovich at this peculiar epoch in history. We have suddenly beheld the wonders of science, the new discoveries of astronomy, physics and chemistry, and we are dazzled. They are more than we can grasp. Having discovered these things, which we had not known before, our habit is to conclude that there isn't anything besides them. Like Ivan, who thought he had reached heaven in his aeroplane and found no God there, many of us think that we have reached the ultimate wisdom in the test tube and the telescope; and as we find there nothing but the law of gravity and certain other principles of the sort, we conclude that they are the final word. Which makes us very miserable.

IF the new knowledge is having this effect with us who are at least partially prepared for it, the effect that it will have in Russia is likely to prove one of the most important developments in the entire range of history. Over in Russia a great part of the people are still in the Middle Ages. While we have been advancing at an amazing rate they have been standing still. While we have been laying a foundation, which is shaken to its bottom in these latter days, they have laid none at all. Perhaps never before, certainly never before on such a scale, has advanced civilization come all at once to a backward people, and the experiment, therefore, is interesting. It is quite the most interesting thing that has happened in our time, and though we don't pay much attention to it, historians will probably regard it as a more significant business than the French Revolution.

IN THE past when civilization came to an uncivilized people, or when they came to a civilization, they usually smashed it and built up a new one on the ruins, as our ancestors did on the ruins of Rome and Greece. Here you have a people who seem to be swallowing our civilization whole, including our farm tractors, movies and skepticism. What the results of

these astounding things are going to be, no one will know for a hundred years or so. Meanwhile, the Russian peasant must find this modern world, or the little slights of it which reach him, an amazing arrangement, probably without meaning of any sort. And probably he won't be far wrong.

CAREFUL records maintained by those whose interests in such things show that five times this year, in all the world, someone has picked up a hand at bridge and found that it contained thirteen cards of one suit. Moreover, bridge has developed such a hardy constitution among its followers that not one of the five died on the spot, as you would expect. That is too bad in a way, for after receiving thirteen cards of a suit there can be little left to live for. A still greater miracle, however, is recorded, for in Brooklyn four girls at a table discovered that they all had perfect hands. One of them, however, proved that her better instincts had not been entirely warped by the game, for she promptly faltered.

IN THE light of these phenomena Theodore Gibson, instructor of mathematics at Long Island University, has been making some endless calculations which are quite useless but very interesting. He has calculated that the chance of a perfect hand being dealt at any bridge table is just one in 40,000,000,000 (forty billion), while the chance of any particular person getting it is one in 159,000,000,000. The chance that a particular suit, say spades, will be dealt entirely to a single player is one out of 635,000,000,000. So you see that if you are an average person you are one out of 635,000,000,000 times to give yourself or your partner a perfect suit. If you were to stay with it and deal the cards, say every thirty seconds, you would have to keep on dealing for exactly 124,000 years, which hardly seems worth while. And most likely when the perfect hand did come out it would go to your opponents.

THE FACT that five perfect hands were dealt last year shows that 200,000,000,000 hands were played, which, perhaps, is not altogether surprising, things being as they are. What is surprising is that the world had time for anything else. The mathematicians can explain all these things, but one thing they can never explain, namely, why it is that despite all the laws of average and good sportsmanship over a long period, the other fellow invariably holds better cards than you do, which is true of every victim of this deplorable habit.

Sooke

Mrs. Gragnic and the Misses Gragnic have left for Victoria, and are now staying at their city residence.
Mrs. Norton Sr. has left for her home in California, after spending a holiday with her son and daughter-in-law, Mr. and Mrs. Felix Norton, Sooke Road.

Mr. Norton and J. Forrest are on a business trip to Vancouver.
Miss Grace Throop, who has been staying at Cowichan for a few months, has returned to the home of her parents on Sooke Road.

Miss Marjorie Murray, who has been staying with Mr. and Mrs. Brownsey, has returned to Victoria.

Grand Concert, under auspices of Young People's Dept., First United Church, featuring Miss Eldredh Leach, noted Canadian entertainer, First United Church Hall, Monday, January 13, 8 p.m. Tickets, 35c.

TWENTY-FIVE YEARS AGO TO-DAY

The Victoria Daily Times, January 10, 1905

In his annual report, which has been submitted to the council, the water commissioner, Jas. L. Baymure, gives a great deal of interesting information on a subject which is of vital concern to the city.

Ottawa, Jan. 10.—The tenth parliament of the Dominion of Canada meets to-morrow to elect a speaker.

The commission, appointed by the Provincial Government to inquire into the working of the Assessment Act, opened its sittings this morning in the caucus room of the Parliament Buildings.

Weather Forecast—Victoria and Vicinity—Moderate to fresh northerly winds, continued fair and cold.

The city council held a very short session last evening. The various reports were referred to the incoming council, and the members then settled down to congratulating His Worship the Mayor. Beginning with Alderman Graham each in turn added his words in praise of the harmonious way in which the business of the year had been transacted.

The monthly medal competition of the Victoria Golf Club was held on Saturday afternoon. Class A medal and sweepstakes were won by Dr. Corbett with 85-2-83.

CR OWN JEWELS OF RUSSIA HAVE FABULOUS PRICE

Soviet Places \$254,000,000 Collection in Huge Steel Cage in Bank

Moscow, Jan. 10.—For better safekeeping Russia's \$254,000,000 collection of crown jewels, probably the finest array of gems ever assembled, have been placed in a huge steel cage in the state bank, in a great coffer resembling a steel barred cell in a prison. The dazzling gems, which include the two of the extravagant Catherine the Great to the last Czar, are placed in plush-lined leather cases on long tables within the "cage" where they will be viewed by foreign visitors.

Upon presentation of proper credentials visitors are admitted to the cage to see this extraordinary display of diamonds, rubies, pearls and emeralds, much the same as they would be allowed to see a prisoner in a cell. No object in Soviet Russia to-day, except it be the body of Vladimir Ilyich Lenin, which lies in state in a wooden tomb in Red Square, attracts the attention and excites the curiosity of visitors quite so much as these crown jewels.

It is by no means easy to secure a permit to see this gorgeous assemblage, in the collection of which the emperors and empresses of Russia of centuries past amassed the diamonds from the two hemispheres. Special guards within the steel-barred jewel cage keep a vigilant eye on the precious treasure, which forms a part of the government's war reserve for the issue of paper money.

CATHERINE'S CROWN
The principal gem in the collection is the magnificent crown worn by Catherine the Great at her coronation in 1762, which is valued by the Soviet Government at \$24,000,000. Eager to see how it feels to wear a royal crown, many visitors to the state bank have tried to put this crown on their heads, but were prevented by Soviet guards.

Others have been attracted by the huge Orloff diamond, which is as big as a dissected egg and weighs 196 carats. This stone is presented by Count Orloff, one of Catherine the Great's lovers, as a birthday remembrance to his sovereign.

FABULOUS PRICE
Ever since the 1917 revolution, the Soviet Government has been trying to dispose of the crown jewels for cash, or to exchange them for tractors, locomotives or other pressing needed articles. As the Government's treasury has been empty, the jewels have been offered to buy any of them.

Experts who have examined the jewels declare the Soviet Government never will succeed in selling the treasure on a basis of historic or antiquarian valuation. They insist the fact the gems once belonged to the Russian royal family, who were murdered, and therefore have historic interest only militates against their value and that only equitable valuation is one based upon the sheer weight of the jewels in carats, and appraised at current market prices.

Emmanuel Auxiliary—The monthly meeting of the women's auxiliary of the Emmanuel Baptist Church was held Monday evening at the home of Mrs. Vale, Roseberry Avenue, when the following ladies were elected to serve as the executive for the present year: First honorary president, Mrs. E. J. Knox; president, Mrs. Geo. Ansty; vice-president, Mrs. J. Wilson; secretary, Mrs. A. S. Woodard; treasurer, Miss Jones. After the necessary business had been transacted the remainder of the evening was spent in a social manner, some interesting competitions being the feature of the programme. The next meeting of the auxiliary will be held on Monday evening, February 3, at the home of Mrs. Eilers, Prior Street.

Y.W.C.A. Classes—Classes for the spring term will reopen at the Y.W.C.A. on January 13 as follows: Monday night, at 8 o'clock, first aid, St. John Ambulance course, china painting; Tuesday, at 8 o'clock, china painting and physical culture; Wednesday, at 8 o'clock, home nursing; Thursday, at 8 o'clock, basketry, needlework; Friday, at 8 o'clock, handicraft, oil and water color painting; current events class at 7:30 p.m.

MISS INEZ CAREY entertained last evening the honor of her parents, Col. and Mrs. H. C. Carey, Rockland Avenue, with three tables of bridge in honor of Mr. and Mrs. Sydney Barker. Mr. Barker will leave on the Empress of Asia tomorrow for his home in Shanghai.

Miss Elsie Michaels of McClure Street left this morning for Seattle on a visit to her sister, Miss Lillian Michaels, and to Mr. and Mrs. George W. Merriens. On Sunday evening Mr. and Mrs. Harry Lear will entertain at their home in the Sound city.

Mr. and Mrs. W. P. Salisbury of Gordon Road, who left on Wednesday for the Niagara for Honolulu, were accompanied on the trip by their niece, Miss Isabel Jessie Turner, daughter of Mr. and Mrs. W. A. Turner, Heron Street, who will be married to Mr. Arthur H. Eyles of Honolulu on arrival of the boat there.

The young people of St. Aidan's Mount Talmie, held their annual new year social at the home of Mr. and Mrs. J. B. White, Doncaster Drive, on Tuesday evening. The evening was spent in music and dancing. Those present were Mr. and Mrs. White, Mrs. E. J. Knox, Miss Mary and Grace White, Kate Hill, Winnie Boorman, Ellen Simmons, Phyllis Williams, Bob Beaumont, Dick James, Bill Hill, Ted James, Doug. Anderson, Horace and Martin Dawson, Alec Phillips, Bill Outhwaite and Harry Henniss. Refreshments were served buffet style, and which brought a very pleasant evening to a close. The members are reminded to turn out in large numbers next Tuesday, when the meeting will take the form of election of officers.

American freight cars are twice the size of British.

Vancouver, Jan. 10.—Mrs. Elizabeth Jane O'Neill, forty-seven, widow of John O'Neill, provincial government boiler inspector, who was drowned in Alari Bay last August, died at her home here last night.

Wonderful Jewels at Big Society Ball In London

London, Jan. 10 (By The Canadian Press).—For the Joy of Life Ball, in aid of the People's League of Health at Covent Garden recently, the Hon. Mrs. John Baring was the finest set of white diamonds ever worn by an individual. The jewels, valued at \$1,000,000, had been lent by Cartier of Bond Street to the ball committee to assist them in their portrayal of "Adornment" as representing the last word in ultra modern fashions in contrast to other characters attired in the fashions of Eve and the Stone Age.

The head-dress valued at \$100,000, was a close-fitting cap made of black beads, over which was a broad band of diamonds from the nape of the neck terminating at the forehead with a large pear-shaped diamond pendant. The necklace was composed of a row of diamonds fitting to the neck and a long eabled chain of solitaire diamonds and was valued at \$325,000.

A large single stone diamond ring was valued at \$100,000, and other ornaments, such as bracelets, dress ornaments and anklets, at over \$300,000.

Personal Items

His Honor the Lieutenant-Governor and Mrs. Macdonald, of a luncheon party at Government House yesterday, when their guests included Mr. and Mrs. Victor Sifton (Regina), Mr. J. A. Heritage, Mr. P. Miller, Mr. C. Nicholas, Mr. W. E. Cantelon and Miss Betty Ward.

Major G. D. Edwards, Esquimalt Road, returned to Victoria to-day from Vancouver, where he has been spending the last few days.

Mr. Norman arrived to-day on a short business trip to England. Mrs. Norman Yarrow will not accompany him, owing to a slight indisposition.

Mr. and Mrs. J. P. Glanville of Calgary, Alberta, have arrived in Victoria, and will spend some time as the guests of their daughter, Mrs. John M. Carson, Newport Ave.

Miss Mildred Bell, R.N., who has been visiting friends and relatives in Victoria, is valued by the Soviet Government at \$24,000,000. Eager to see how it feels to wear a royal crown, many visitors to the state bank have tried to put this crown on their heads, but were prevented by Soviet guards.

Capt. and Mrs. C. D. Kerouac have returned to Victoria from Vancouver, where they went to attend the wedding of their son, Mr. Cyril Kerouac, and Miss Winter.

Miss Marguerite Hubbell has arrived in the city from Montreal and is the guest of her brother-in-law and sister, Major and Mrs. Allan Swinton, 61 George Road.

Mrs. H. H. Rowley, Joan Crescent, has returned from Seattle, where she has been visiting Mr. and Mrs. W. Mackay. Mrs. Denmark will remain in Seattle for another week.

Mr. and Mrs. F. E. Winslow, Craigdarroch Road, who have been spending a few days in Vancouver, have returned to Victoria. Mr. and Mrs. Winslow were among the guests from Victoria at the Nerone-Winter wedding.

Mrs. W. C. Thackray entertained this afternoon at her home at Work Point Barracks at the tea hour in honor of Mrs. C. R. H. Taylor, who, with Commander Taylor, will leave next week for England.

Mrs. David Dalg, of Victoria, who has been spending the Christmas holidays in London as the guest of her sister, Mrs. J. W. Fordham, is leaving this morning for Monte Carlo, where she will spend some time.

Miss Peggy Brinkley, who has been spending the holidays with her mother, Mrs. James Shields, Oak Bay, left yesterday for New York, where she will resume her studies at the American Academy Dramatic Art.

Mrs. H. S. Howard and Mr. Pat Howard, Fort Ross, who returned to their home in Victoria from Port Angeles, where they have been visiting as the guests of Mrs. Howard's son-in-law and daughter, Mr. and Mrs. Warren Morse.

Miss Inez Carey entertained last evening the honor of her parents, Col. and Mrs. H. C. Carey, Rockland Avenue, with three tables of bridge in honor of Mr. and Mrs. Sydney Barker. Mr. Barker will leave on the Empress of Asia tomorrow for his home in Shanghai.

Miss Elsie Michaels of McClure Street left this morning for Seattle on a visit to her sister, Miss Lillian Michaels, and to Mr. and Mrs. George W. Merriens. On Sunday evening Mr. and Mrs. Harry Lear will entertain at their home in the Sound city.

Mr. and Mrs. W. P. Salisbury of Gordon Road, who left on Wednesday for the Niagara for Honolulu, were accompanied on the trip by their niece, Miss Isabel Jessie Turner, daughter of Mr. and Mrs. W. A. Turner, Heron Street, who will be married to Mr. Arthur H. Eyles of Honolulu on arrival of the boat there.

U.S. AVIATRIX IN FATAL CRASH
Mrs. Neva Finley Paris Killed Yesterday—Plane Fell 200 Feet

Woodbine, Ga., Jan. 10 (AP).—Mrs. Neva Finley Paris, thirty-six, of Great Neck, N.Y., nationally known aviatrix, was killed near here yesterday as her plane crashed into a marsh at the edge of the Battle River. She was en route to Miami Fla. to participate in an air derby there next week.

Mrs. Paris, who won fifth place in the women's national air derby last summer, had started from Great Neck last week to fly to Miami in short hops. She left Columbia, S.C., yesterday morning, and was within a few minutes flying distance of her next stop, Jacksonville, Fla., when her plane crashed over Woodbine several times at an altitude of about 2,000 feet and then fell.

A coroner investigated the accident. The body was removed from the marshes to a little church here, and later sent to an undertaking establishment at Brunswick, Ga., pending receipt of word from relatives. The head of the aviatrix was crushed, one arm broken and the other bent. The body was never duplicated. The plane, which did not catch fire, was demolished by the impact.

PLANS TEACHERS' TOUR TO ORIENT

MRS. HAROLD PALMER who will organize tour of teachers and others to the Orient this summer.

Mrs. James Ramsay and her daughter, Mrs. C. Smith, who have been residing in Mr. Goulding Wilson's home on St. Charles Street, will leave tomorrow on the Empress of Asia for Honolulu, where they will spend some time en route to China. Mrs. Ramsay and Mrs. Smith will return to Victoria in June.

Mr. and Mrs. A. L. Hocking of 119 Woodlands Avenue, who were married in Southport, Lancs, England, on January 9, 1929, and who have been residents of this city for twenty years, celebrated the thirty-fifth anniversary of their wedding, receiving congratulations from a number of friends. In celebration of the happy occasion, Mr. and Mrs. Hocking and a number of their friends attended the dinner dance at the Empress Hotel last night and spent a very enjoyable evening.

Miss May Murie and Miss Margaret Taylor were joint hostesses on Wednesday evening at the home of Miss Murie, 141 Amphlett Street, at a miscellaneous shower and bridge party in honor of Miss Madeline Priestley, whose marriage will take place shortly. The guests included Mrs. S. H. Priestley, Mrs. A. Murie, Mrs. Joe Grant, Mrs. J. Hiberson, Mrs. L. Rose, Mrs. N. Holland and Miss Dorothy Key, Winne Terminus, Ethel Lambert, Belle Ordwood, Muriel and Dorothea Daniels, Pat Hudson, Viola Johnstone and Madge Oliver.

The body was removed from the marshes to a little church here, and later sent to an undertaking establishment at Brunswick, Ga., pending receipt of word from relatives. The head of the aviatrix was crushed, one arm broken and the other bent. The body was never duplicated. The plane, which did not catch fire, was demolished by the impact.

Mrs. Paris lived at the home of her father, C. E. Finley, at Great Neck. She was born in Kansas City, Mo., but while a small child, moved to New York with her parents.

At the quarterly meeting of the Mothers' Union, held in St. Mary's Hall, Oak Bay, on Wednesday, the president announced that Mrs. Sydney Oliver, diocesan secretary, and Mrs. Horace Hamlet had been appointed by the diocesan council to represent the diocese at the world-wide conference in London next July. It was also decided by the meeting that a collection shall be taken at the next meeting in March, which they shall present in a sealed bag at the bank, in an air derby there next week.

on July 24 as an offering from this diocese.

A voice of sympathy was given to Mrs. Thomas and Mrs. Hamlet on the death of their aunt, Miss Sweet. A most interesting letter from Mrs. Walker, a new member at Quilts Cove, was read, describing conditions there.

The president, Mrs. Cropper, gave an account of her visit to the Mothers' Union branch in Vancouver, and also delivered a New Year's message to the members, giving them as a motto for 1930: "Let your manner of life be worthy of the Gospel of Christ," and urging them to remember it was an honor to work for God's kingdom.

Mrs. Cropper, an ardent member for Shawinigan Lake, gave a most helpful address on the responsibility of mothers, showing that the foundation of habits, physical, mental and religious, cannot be laid too early in life. Good literature, art and music are great factors in a child's mental development, but young people cannot be expected to practice any form of religion if they do not have an ex-giving service in Westminster Abbey ample set them by their parents.

"So Skinny Shamed In Bathing Suit. Gained 15 Lbs."

"Gained 15 lbs. taking ironed yeast. Was always ashamed to wear bathing suit but now I can and not feel too skinny."

Thousands write of 5 to 15 lbs. gained in 8 weeks with Ironed Yeast. Bony limbs round out. Ugly hollows fill in. Sallow skin gets new, healthy color like magic. Nervousness, indigestion, constipation disappear overnight. Sound sleep. New health and pep from very first day.

Two great tonics in one—special weight-building malt yeast and strengthening iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in 1 1/2 time.

So quit being ashamed of "skinny," sallow skin. Get Ironed Yeast from druggists today. Money back from manufacturer if not delighted with quick results.

METCHOSIN W.I. SHOWS PROGRESS

Annual Reports Reveal Excellent Work Done; Officers Elected

Special to The Times
Metchosin, Jan.—The annual meeting of the Metchosin Women's Institute was held on Wednesday afternoon at the home of Mrs. Taylor. The chair was taken by the president, Mrs. McVicker, and there was a large attendance.

The secretary's report and the financial statements were approved as being satisfactory. The president's report showed that the institute had devoted much time and money towards repairing and enlarging the hall in addition to furnishing it with a kitchen stove and utensils and curtains.

Five members had left the district for various reasons so the membership was not large. Contributions had been made last winter with Mrs. Bond, of the Okanagan as instructor. The class was well attended and many beautiful gloves were made. The annual bazaar and spring flower show was an unqualified success.

A visit from the well-known artist, Miss Emily Carr, and Mrs. Grute, who brought with them many beautiful examples of their B.C. Pottery, was a feature of the year's activities. Mrs. Grute gave an expert demonstration of pottery making and Miss Carr told many interesting facts relating to the Indian designs, the motif used in the decoration of so many pieces.

PIONEERS ENTERTAINED
The annual pioneer entertainment was held at the hall on the evening of October 24, the twenty-first anniversary of the founding of the institute, and was a great success. Representatives of seven different institutes were present and offered their congratulations. Greetings were read from the Parkville Institute.

Many pioneer pictures have been selected, framed and hung in the hall. Negatives have been placed with the Provincial Archivist for safe keeping. Among the correspondence was a letter of thanks from the secretary of the hall committee for a donation of \$70 towards the expenses of enlarging and repairing the hall.

A letter asking the members to endorse a resolution asking for an amendment to the Mother's Pension Act was read. Mrs. Booth and Mrs. Fedin, who were present, explained the working of the present act and after some discussion the resolution

YOUR BABY and MINE By MYRTLE MEYER ELRED

Mrs. Elred will be glad to answer all questions pertaining to babies and children, and self-addressed envelopes forwarded to this office will bring a personal reply.

SUGAR IS FREQUENTLY NEGLECTED ELEMENT IN BABY'S FORMULA

Complaints about the indigestibility or failure of a milk formula usually result in the discovery that the formula isn't "all there." One of the commonest mistakes made by mothers, who have no knowledge of milk formulas, is to leave out the sugar element entirely or else put it in merely as a "flavor."

Sugar is put into milk formulas because cows' milk lacks the amount of sugar normally present in breast milk, and breast milk is, after all, the pattern for the food with which we are trying to nourish baby.

Under those circumstances a formula minus sugar or minus sufficient sugar causes results in baby's being dissatisfied with his bottle formula (even though he is getting all the milk he is supposed to have at his age) or else in making him extremely constipated.

Even if the baby doesn't cry after his bottle nor act like a cranky and hungry young gentleman, his formula causes him to be extremely constipated. The mother notices that the movements are very hard and difficult to pass, sometimes clay-colored, in every case without exception. If she is finding that the mother, even if she is using my feeding leaflet, seems unaware of the lack in the formula and is just certain that "my baby can't take cow's milk." Why mothers so frequently ignore this element is one of the constant surprises of my continuously surprising existence. Special-

was filed for further investigation, on motion of Mrs. Helgesen. The election of officers for the current year was next read, the results being as follows: President, Mrs. McVicker; vice-president, Mrs. F. G. Johnson; directors, Mrs. W. Witty, Mrs. C. Helgesen.

Mrs. C. Helgesen moved a hearty vote of thanks to the retiring officers for their services. Mrs. Taylor proposed that the members devote some of their energies and funds towards making necessary repairs to the cemetery and help with the work of keeping the grounds in proper order. Mrs. Taylor also suggested that some of the members help to express a wish to help with the expense of marking the grave of the late nurse, Miss O. K. Gawley, suggest this work be taken up. After an hour's discussion Mrs. Taylor was asked to find out the cost of a cement curb.

Mrs. Booth president of the South Vancouver Island District Board, in the course of a very interesting address gave information regarding many matters including the new divisions of the Province into smaller districts which promised greater economy, convenience and efficiency, and the training of school girls in connection with the judging competition. In response to inquiries she gave much interesting information regarding the woolen mill lately established at Victoria.

Mrs. H. Jordan, "Kenwick," Quarantine Road, entertained on Tuesday afternoon with two tables of bridge, in aid of the funds of the Women's Institute of St. Mary's Church. Owing to the severe weather there was only a small attendance at the opening meet of the Badminton Club on Tuesday night. Nine members enrolled and enjoyed some good practice.

Mrs. F. G. Waldo moved a vote of thanks to the president and secretary. After adjournment, tea was served by the hostess, assisted by the Misses Owen Jones and Barbara Johnson. An aluminum chafing dish was drawn for by the members, the winner being Miss Barbara Johnson. A hearty vote of thanks was given to the hostess for the use of her home.

RUINS OF SODOM BELIEVED FOUND

Jerusalem, Jan. 10.—Father Mallon, who directed the excavations that were reported Monday to have brought to light the Biblical city of Sodom, said that identification of ruins discovered by his expedition as Sodom was premature.

He believed that further researches will be necessary before real identification is possible and hopes to resume in the spring the excavations that were begun in November. The ruins, which Father Mallon said

FASHION PLAQUE

This hand-knitted yellow wool sweater ensemble for the south includes a scarf and beret of the same material. The sweater has a dark brown simulated tie dotted with white. The beret and scarf motifs are white with brown dots.

book is devoted to simple and useful instruction regarding the human body and rules for health, but much of it is very misleading, to say the least. In chapter xii we are told that germs grow in the tonsils and cause tonsillitis and that they work their way, in case of adenoid growth, up the Eustachian tubes and cause earache! We are also informed that colds are caused by germs in the nose and a house of kindred statements are a source of confusion when we remember that there is no proof whatever that disease is caused by germs.

We ought, after thousands of years of experience, to know that peace of mind is an aid to health; there is no need to refer to the revolting experiments by Pavlov, on dogs, to prove that an animal undergoing severe suffering is affected by fear, disappointment, hunger or artificially produced effects.

Chapters xxi and xxii launch the reader without hesitancy on a description of disease germs and their conduct, without the slightest regard to the fact that the germ theory is in the melting pot and that the teaching is pure assumption. It is scarcely surprising to find a plea for inoculation in the last paragraph of one chapter.

Chapter xxv is devoted to diphtheria and refers to the much-lauded "antitoxin" (procured from the blood of diseased horses), with an additional reminder that this poison should be used in case of disease, or even as a preventive. The pages are decorated with tables supposedly showing the death-rate with, or without, antitoxin, but as they are supported by no evidence they are not convincing. No reference is made to the ill effects of antitoxin, or the sudden deaths that have followed its use.

In this same chapter we learn that cats suffer from diphtheria and spread the disease! This statement is entirely incorrect, but I quote one example in support of my contention. In "Diseases of the Cat," by Captain Hamilton Kirk, we read "the cat is exonerated from any complicity in spreading diphtheria among human beings . . . attempts to cultivate virulent human diphtheria bacilli on the throats of kittens or full grown cats . . . were complete failures."

Chapter xxvii is on Tuberculosis, which is doubtless a constitutional disease, probably due to a blockage in the circulatory system. Dr. Chowry Muthu, the most famous authority on pulmonary tuberculosis at this period,

after this fashion, pay no attention at all to him."

Lack of space alone prevents a more comprehensive criticism of this unfortunate text-book, which is used in the provinces of British Columbia, Alberta and New Brunswick and issued at the expense of the public purse. Its teaching is in many ways dangerous and faulty. It gives the impression of being circulated largely as propaganda for the benefit of a certain section or thought. The Minister of Education for British Columbia, in a letter (November 21, 1929) on the subject, admits "that the matter is a very debatable one . . . That is the contention and one feels that a large number of parents and teachers will support this objection to forcing unreliable and debatable questions upon the attention of our school children, who are thus to be educated on a false basis."

After reading this book one is astounded with the pater evolved by germ theorists; if we were guided by its doctrines we should fear every moment of our dangerous existence here. Nothing would be safe for us to touch, eat, or drink. We should avoid our brethren as we would avoid lepers.

The Standard of Quality Since 1853

Cold motors that give

one cough and die

... very likely
they're suffering
from "wet" gasoline

ORDINARY "wet" gasoline can't vaporize in cold weather. It contains too many heavy kerosene-like fractions. No amount of doctoring can make it "dry." Calling it "winter" gasoline doesn't help.

It gives you starting troubles... plenty of them. You have to use full choke. Even then your motor will very likely sputter weakly and die two or three times before it finally warms up.

With Shell 400, the "dry" gas, you get a dry vapor that catches quickly from the spark. Start with Shell 400 on half choke. In a few seconds you need no choke at all to run smoothly. And think how much less oil dilution you get with this "dry" gas! "Wet" gasoline floods down the cylinder walls into the crankcase. "Dry" gas burns cleanly without waste.

Fill up with Shell 400 at the first yellow and red pump you see. It is the proper cure for cold, balky motors.

QUICK STARTING SHELL 400 The 'DRY' gas

BLOW YOUR BREATH
ON A COLD MIRROR
... that's what happens to "wet" gasoline in a cold motor—it condenses in droplets on the cylinder walls. "Dry" gas, on the other hand, stays vaporized better and therefore burns more cleanly

Bayley Launches Injunction Proceedings Against Fielding

THE SPORTS MIRROR

I'm going to stay in baseball until I am physically unable to continue. Most men quit because they can't stand travelling. I like it. And as for the nervous strain, it is part of my life. I love it. Those are the words of one of baseball's greatest managers, Connie Mack, who at sixty-seven, is going ahead with plans for his baseball championship for 1930 in his little office at Shibe Park, Philadelphia.

"Criticism worries a lot of people," he goes on to say, "but it never bothers me. I have been old several times. I have had plenty of it. I have seen times that I took an awful chance in starting Ehmske in that first game of the world series, and that it took courage to follow on the plan. It never occurred to me to stop and think of the consequences if Ehmske hadn't come through. Criticism is never in my mind. I go down to the bench to run the ball team, and I think of that alone, and not what people will say about my choice of players or plans of the game."

Mack was asked if he intended to retain the 1929 line-up for the next season.

"I don't intend to stand pat," he replied. "But of course I don't mean that I'm not satisfied with the team that won the championship. I'm not going to do any wrecking, but whenever I see a chance to improve the club by changes in the line-up, I'm going to make them. I stand pat sometimes, to be sure. That's because I must—because it is impossible to make the changes I would like to make."

The season will start, however, with every man in the same position he was playing when the 1929 season ended. Mack, Jimmy Fox will be at first base. For a while last season it appeared that Fox would have to be shifted when Mickey Cochran was out of the game with a broken rib. Perkins was catching, and if something had happened to him, Fox would have had to fill in the gap. That is one of the reasons why Connie brought Wally Schang back from St. Louis—to be ready to catch if Cochran got hurt.

Mack says he was sorry to see Sammy Hale go, but he believed that Sammy would do better in St. Louis. Philadelphia fans worried Hale a lot, and for that reason, according to Mack, Sammy never played the game he was able to play in Philadelphia.

The first of the great three-year-old "Coca-Cola" derbies, valued at \$25,000 added, has been scheduled for March 2, with fifty-seven horses nominated. These include colts, fillies and geldings. The event is an open one, and is held annually the Tia Juana Derby race in importance, such horses as Hedgesford, Carlaria, Justice F. and Nalshapur being among recent winners. In 1929 it grossed more than \$10,000 to the winner, and was responsible for the development of half-a-dozen colts which made their mark in the turf world. The Tia Juana Derby promises to be even more valuable. The list of eligibles indicates the field that will go into action over the mile-and-a-half route this season will be a worthy one.

Headline the nomination list is Jim Dandy, winner of the Grand Union Hotel Stakes at Saratoga; Hacky H. one of the outstanding colts of New York and Maryland last racing, and Flucky Play, which finished second, beaten by Hacky H. in the Fair Handicap at Bowie, Md. Of these, two are on the ground.

Willis Sharpe Kinner has seen fit to name five of his youngsters for the year, four colts and a filly. These are Dark Sea, which was an added starter in the Belmont Futurity; Dark Magic, a swift worker; Dark Ayr; Dark Magic and Sun Roma. All are stable in the private barn of the Binghamton sportsman at Agua Caliente.

Other colts of consequence involved are Sidney Grant, a stable mate of Golden Prince, from the Bartlesville end; Unna barn; Maestro, a well-regarded lad from the Rancho Stable now training at the new Fair Grounds, New Orleans; Line Rider, a High Time colt owned by the Three-D farm of the Wagoners; H. Guy Bedwell's Red Bird, a Canadian; and R.C. Stable's Longus, a Waywood colt which has already proved a stayer; the Pope Stable's Native Son, a New York winner; Marvin Allen's Decie and Herman Cortes, belonging to Miss Blanche Watson, and E.H. Von Roenn's Colonel Bell.

Four brilliant fillies are among the nominees. These are Thistle Ann, winner of the Paddock and Post Stakes at Arlington Park; Chicago's Harry Una's Heretic, one of the outstanding performers on the Illinois turf; Johnny Coburn's Greyola, winner of three stakes in New York; and Harry Morris's Kinsmen, which though a non-starter has been pronounced one of the finest thoroughbred mares stable in New Orleans. This Cudgel-Bucky youngster has worked sensationally.

That the West intends to make a stout bid for Derby honors is apparent. Baron Long has named two able San Diego bred colts, Norab and Harriet-Stuart. Folk goes after the big purse with Tonto Rock, the best horse he ever owned, uncovered so far at Agua Caliente racing; Good and Hot, the speedster from the Meadowsbrook Farm, of John McKown, the oil magnate; the Nevada Farm's Flying Fast; Bob Hobble, full brother of Alexander Pantagones, also from the Meadowsbrook Farm, and several others of known worth. The western bred lot is said to be the most formidable produced in years. Colts from eastern breeding farms won all nine renewals of the Tia Juana Derby, but in the last two decisions the runner up was a westerner.

Bucks Gain Sixth Straight Win And Challenge Leaders

Fast-stepping Portland Club Now Only Two Points Behind Vancouver Lions; Defeat Seattle 3-0 in Furious Fray; Referee Ion Hands Out Five Major Penalties and Three \$10 Fines; Coupez and Teel Score Portland's Goals.

Portland, Jan. 10.—Portland last night ran its string of victories to six straight and stood within one game, two points, of the Pacific Coast Hockey League-leading Vancouver Lions by defeating Seattle Eskimos 3-0 on the Coliseum ice.

The Bucks' most recent victory was a wild exhibition from start to finish and in the course of the furious fray Referee Ion assessed five major penalties, thirteen minor and three \$10 fines.

Louis Coupez scored two of Portland's goals. He got the first fourteen minutes and twelve seconds after the first period opened.

In the final session Seattle sent everybody but Goalie Winkler down the ice. This desperate effort to tie the score opened the way for Portland's two other goals.

Gordon Teel captured the puck and with no one but Winkler between him and the Seattle net, scored an easy goal. The shot was made seventeen minutes and fifty-seven seconds after the opening of the period.

Less than three minutes later Coupez and Armstrong worked a combination to get within scoring distance of the Eskimo goal for the final score, while most of the Seattle players were left flat-footed in Portland territory.

The Line-ups
Seattle—Winkler, Benson, Daly, Browne, Harris, Reinikka.
Portland—Aitkenhead, Pratt, McGoldrick, Conn, Teel, Lyons.
Seattle subs—Townsend, Anderson, Sutherland and Savage.
Portland subs—Downie, Coupez, Huffman and Armstrong.
Referee—Mickey Ion.

Summary
First period—1, Portland, Coupez, 14.12. Penalties, Sutherland, McGoldrick, Townsend and Pratt; Savage, two minutes and \$10; Harris and Teel, two, two minutes and ten seconds.
Second period—No score. Penalties, Anderson, McGoldrick, Benson, Townsend, \$10 and Coupez.
Third period—2, Portland, Teel, 17.53; 3, Portland, Coupez from Armstrong, 2.56. Penalties, Pratt, Teel ten minutes and \$10; Harris (ten minutes and \$10).

Presence of Rain Gives Advantage to Kirkwood and Dutra in L.A. Open

129 Golf Stars Start Three-day Trek in Quest of \$10,000 in Prize Money

Canadian Press
Los Angeles, Jan. 10.—The rain-soaked course of the Riviera Country Club to-day failed to dampen the ardor of the 129 tried and proven golfers as they prepared to start their three-day journey through seventy-two holes of medal play in the fifth annual Los Angeles \$10,000 open tournament.

The select field of the country's leading performers of the fairways face the prospect of starting their campaign for the championship now in the possession of MacDonald Smith, Long Island, N.Y., professional, and the winner's share of the prize money, in a down-pour of rain. This, coupled with the stubborn 71-par course, with its rugged terrain and changeable, adverse weather conditions, those who earned their way into the qualifying round on Wednesday, or had been grouped among the exempt, are inclined to enter the tourney in an optimistic frame of mind.

THANKING FATES
Those who finished the Long Beach event a week ago under similar conditions are thanking the fates which gave them an opportunity to test their game in a torrential rain.

The sombre clouds are not without their silver linings to others of the links stylists. Among these are Walter Hagen, whose record in foreign tournaments under adverse weather conditions has marked him as a strong favorite, should the rain continue.

The great Hoge, because of his extended successful campaign on the world's leading courses, under all kinds of equal in bad weather.

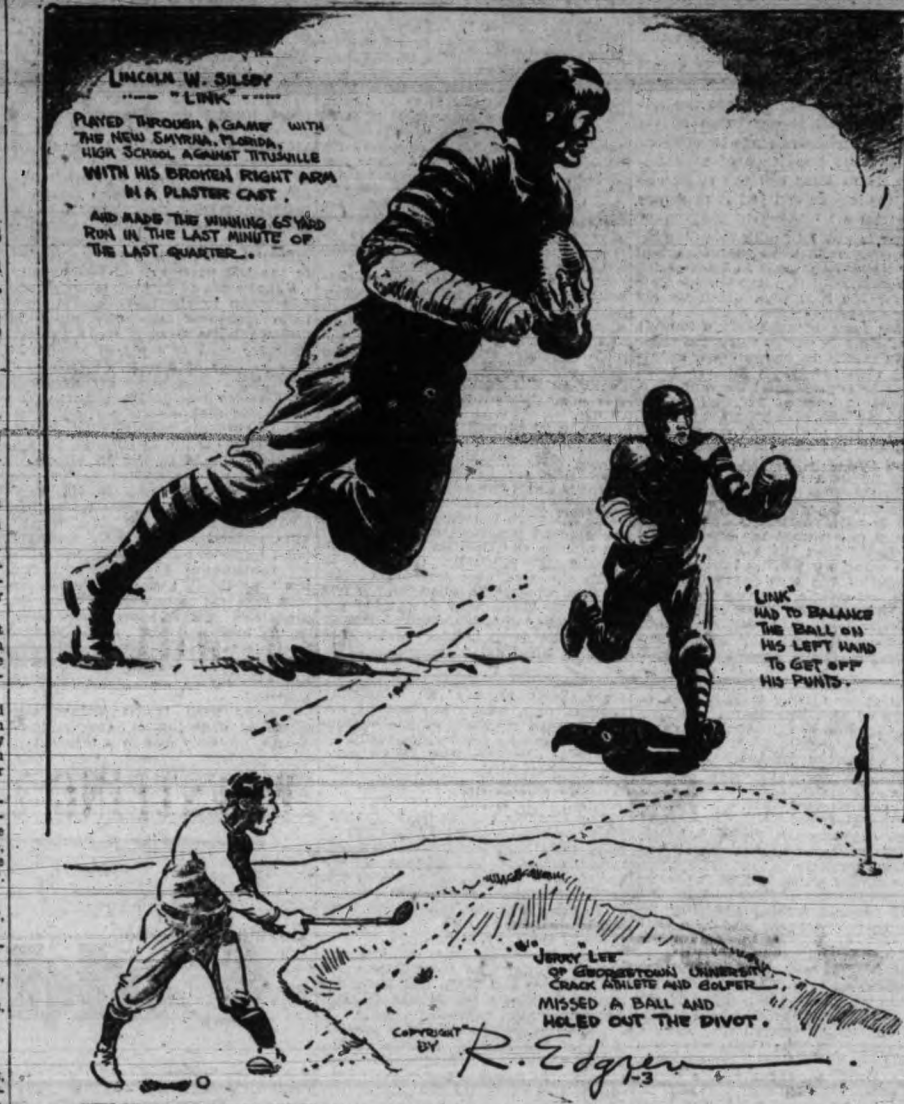

Joe Kirkwood, the Australian trick shot artist, who, with Olin Dutra, Santa Monica, Cal., professional, finished in a tie for the first place money at Long Beach, are conceded an advantage because of ability displayed as "mudders."

PEDENS TO CLASH WITH LUMBERMEN

Senior "A" Basketball Teams Will Hook Up To-night in Knockout League

Capitals Will Oppose James Island; Red Birds and Axioms Are Billed

Three basketball games are scheduled at the High School gymnasium to-night in the Vancouver Island knockout competition. In the feature game of the evening, Pedens will meet the C.P.S. in a men's fixture with the former favored to carry off the honors. In the other two games the Axioms and Red Birds will meet, while the Capitals will try conclusions with James Island.

In the opening game the Capitals are heavy favorites to put up and to the advantage of the Islanders in this competition. In the first round games the Caps put out the strong Y.M.C.A. team, while James Island traveled to Shawnigan to defeat the Up-Island five.

The second game should be a battle royal when the Red Birds and the Axioms hook up. In a previous meeting, the former took the game by a three-point margin, and will be out to repeat. The Axioms, however, will seek revenge and will be in the battle right from the starting whistle.

When Pedens and C.P.S. meet a great match is looked for. In the last game between these teams the lumbermen took the game by 18-14. Probable starting line-ups follow: Pedens—Hocking, Wachter, Chapman, Little, Ross, White and Moore. C.P.S.—Davis, Butler, Skillings, Fagerburg, Bisell, Woodridge, Martin and Warnock.

Red Birds—T. Bennis, M. Wilson, K. Welburn, J. Edwards, B. Boyce, H. Atherton, V. Taylor and Dot Lee. Axioms—R. Bethel, J. Milliken, J. Anderson, B. Penner, K. Freestone, G. Gilpe and N. Myers. James Island—Rivers, Ross, Jenkinson, Thomson, Aldous and Smith. Capitals—N. Forbes, K. Turpin, A. Cudlip, A. Webster, B. Tervo, Jack McKenzie and T. Forbes.

Del Bissonette Recovering From Serious Operation

New York, Jan. 10.—Del Bissonette, clouting first-baseman of the Brooklyn Dodgers, is recovering in St. Mary's Hospital, Brooklyn, from a mangled operation performed there New Year's Day. It was the second operation Bissonette had undergone since the close of the 1929 season. If Bissonette is out of the line-up when the pennant race gets under way, Harvey Hendrick probably will be used at first base.

Three special concerts at the Empress Hotel this season, January 23, March 28, April 17.

By Robert Edgren

Brilliant Feat Performed By Surrey Cricketer In New Zealand Test Match

Christchurch, N.Z., Jan. 10.—A feat unparalleled in international cricket was performed here to-day in the opening phase of the test match between England and New Zealand, when M. J. C. Allen, young Surrey amateur, captured the wickets of four batsmen with five balls. He also did the "hat trick," taking three wickets with successive balls. The game is the first test between the Marylebone Cricket Club's touring team, representing England, and New Zealand. The New Zealanders batted first and made a mediocre showing, being all dismissed in their first innings for only 112. England had lost four wickets in their first innings for 147 runs when stumps were pulled.

The wicket was in excellent condition and Allen found it entirely to his liking. He sent down a number of offerings which came up fast from pitch with a leg break.

After a dozen overs he was quite unplayable. He kept a consistent length and with Allow bowled practically through the entire New Zealand innings.

Prince Duleep Singh gave a characteristic display, hitting up forty-nine for England, in which were four fours.

BOWLING FIELDS MEETS JIMMY OWENS

Welterweight Champion Will Engage in Another Non-title Bout To-night

Chicago, Jan. 10.—The Chicago Stadium will present its opening boxing programme of the New Year to-night with a world champion and a title contender on the bill.

Jackie Fields, world welterweight titleholder, will meet Jimmy Owens, Oklahoma City puncher, in a special ten-round encounter, but interest has centred on the ten-round between King Tut, mauling Milwaukee lightweight, and Bruce Flowers, New Rochelle, N.Y. slugger.

Tut has slugged his way to a leading position among contenders for a bout with Lightweight Champion Sammy Mandell and is favored to beat the negro veteran.

Fields and Owens will enter the ring over the weight and the title will not be involved.

Billy Petrolia Will Fight Again
Chicago, Jan. 10.—Billy Petrolia has retired from retirement. The Fargo, N.D., "Express" who decided to hang up his gloves after King Tut decisively defeated him in Detroit four months ago, will again be ready for ring activity within two weeks, he made it known yesterday.

Court Action Opens After Counsel Fails To Locate Fighter

Search Until Daybreak Brings No Light as to Whereabouts of Victoria Lightweight; Justice Gregory Grants Bayley's Counsel Leave for Substituted Service; Terms of Agreement Between Bayley and Fielding Are Mentioned; Final Settlement Delayed.

Injunction proceedings against Thomas Phelan, who boxes under the name of Tommy Fielding, were advanced a stage this morning when an order for substituted service was granted to J. W. Walls, acting as counsel for Joseph Stanley Bayley, former lightweight champion of Canada, who is seeking to stop the Fielding-Carter bout advertised to take place here on Saturday night.

GARRISON WINNERS OF MATCH

Defeat Langford By Nine Matches to Seven in Close Badminton Game

Edge in Mixed Doubles Gives Victoria Team Win; Many Exciting Matches

Garrison badminton players in the third division went a step nearer the top last evening when they journeyed to Langford and took the Langford Leghorns into camp in one of the closest matches of the season. The score was nine matches to seven.

Beginning with the men's doubles the home team appeared strong when their first pair of Le Quenne and Pennington made a short work of Jones and Hocking. However, the match was evened up when Simpson and Couland won their first match, and their partners took their second fixture. Le Quenne and Pennington chalked up both home victories. In the women's doubles matters were again even, each team winning two matches.

The Garrison took five of the eight mixed doubles to make sure of the match. Several spectacular matches took place during the evening, but were confined chiefly to the mixed doubles. Mr. and Mrs. Le Quenne won the most popular victory of the night when they came from behind with the score reading 11-2 to win 18-18 from Mrs. Merion and Couland. The same Garrison pair again came in for a tight match when they encountered Mr. and Mrs. Bayley, whom they defeated 17-15 after a very exciting contest.

The scores and teams follow with first named MEN'S DOUBLES

Jones and Hocking lost to Le Quenne and Pennington, 15-5.
Couland and Simpson beat Hince and Bayles, 15-7.
Couland and Simpson lost to Le Quenne and Pennington, 15-9.

WOMEN'S DOUBLES
Mrs. Couland and Mrs. Merion lost to Mrs. Bayles and Mrs. Le Quenne, 15-4.
Miss Hedley and Mrs. Rayment beat Mrs. Hince and Mrs. Sparks, 15-12.
Mrs. Couland and Mrs. Merion beat Mrs. Hince and Mrs. Sparks, 15-5.
Mrs. Hince and Mrs. Sparks lost to Mrs. Bayles and Mrs. Le Quenne, 15-12.

MIXED DOUBLES
Miss Hedley and Locking lost to Mr. and Mrs. Le Quenne, 15-7.
Mrs. Merion and Couland beat Mr. and Mrs. Bayles, 17-15.
Mrs. Couland and Jones lost to Mr. and Mrs. Hince, 15-7.
Mrs. Rayment and Simpson beat Mr. and Mrs. Hince, 15-7.
Mrs. Hince and Hocking lost to Mr. and Mrs. Le Quenne, 15-10.

THOSE WHO TURN OUT
The following are requested to turn out for the practice: Bus, Butler, Cockin, Dunn, Ellis, Fell, Bruce and Campbell Forbes, Coak, Goodwin, Gaunt, Gann, Horne, Hume, Holt, Kinman, Lamb, Le Marquand, McDonald, Mawhood, Miller, Oliver, Parfitt, Parker, Pollard, Ruggles, Rowland, Tye, Turgoose, West and Gundry Weman, Webster and Warnock.

Phil Willis and Bob Travis will put the boys through their paces. Special handling and running tactics will be tried as well as scrum formations and peck plays.

Although only seventeen or eighteen players will make the trip to Vancouver on January 25, a large number of spectators will also doubtless go over to watch the local performance.

A win for the Capitals will put them at the top of the McKelvie Cup league, while a draw will place them in second position. If the team gains either of these, it will still be in the running for the silverware.

Dusty Miller Is Beaten By Frank Denny of Oakland

Vallejo, Calif., Jan. 10.—Frank Denny, Oakland heavyweight, won the decision over Dusty Miller of Victoria in the ten-round main event at the Vallejo Athletic Club last night.

REP RUGGERS TO WORK OUT AT WILLOWS

Local Squad to Go Through Light Work Out in Place of Cancelled Senior Game

Thirty-three prospects for the Victoria "rep" rugby will turn out for a light practice at the Willows to-morrow, it was announced by the selection committee last night.

From this number twenty-two will be picked for the try-outs for the game against Vancouver in the Terminus Cup on January 25.

Owing to the condition of the ground which virtually eliminates any chance of tackling, the regular scheduled fixture between the J.B.A.A. and the Canadian Scottish has been indefinitely postponed.

At the workout, the players will go through running and formation exercises, but will not take up any strenuous play.

THOSE WHO TURN OUT
The following are requested to turn out for the practice: Bus, Butler, Cockin, Dunn, Ellis, Fell, Bruce and Campbell Forbes, Coak, Goodwin, Gaunt, Gann, Horne, Hume, Holt, Kinman, Lamb, Le Marquand, McDonald, Mawhood, Miller, Oliver, Parfitt, Parker, Pollard, Ruggles, Rowland, Tye, Turgoose, West and Gundry Weman, Webster and Warnock.

Phil Willis and Bob Travis will put the boys through their paces. Special handling and running tactics will be tried as well as scrum formations and peck plays.

Although only seventeen or eighteen players will make the trip to Vancouver on January 25, a large number of spectators will also doubtless go over to watch the local performance.

A win for the Capitals will put them at the top of the McKelvie Cup league, while a draw will place them in second position. If the team gains either of these, it will still be in the running for the silverware.

Dusty Miller Is Beaten By Frank Denny of Oakland

Vallejo, Calif., Jan. 10.—Frank Denny, Oakland heavyweight, won the decision over Dusty Miller of Victoria in the ten-round main event at the Vallejo Athletic Club last night.

Rossland Miners Defeat Nelson 4-2

Rosland, B.C., Jan. 10.—In the opening hockey game of the West Kootenay Senior Amateur League here last night, Rossland, who were defeated by Nelson in the first round, won the game 4-2.

Rosland scored three goals in the first period and one in the second. The first goal was scored by Nelson in the first frame. Trail plays in Nelson in the next league game Monday.

Maroons Show Strength To Increase Their Lead

After a Slow Start Maroons Look Like Championship Team

Appear Almost as Strong as Boston's Championship Bruins; Blank Rangers to Gain Three-point Lead in Canadian Section; Toronto Gives Real Display to Hand Ottawa First Whitewashing of Season; Chicago and Detroit Fight to 1-1 Draw; Boston in Fourteenth Win.

Toronto, Jan. 10.—The Montreal Maroons were rather slow in getting started for the current hockey league season but now that they are on the top, they appear almost as strong as Boston's amazing Bruins.

They took the top of the Canadian division by beating Canadiens then last night made their margin of leadership a safe three points by downing the New York Rangers. It was a real battle with the players hitting the ice with thuds that occasionally could be heard all over Madison Square Garden. The Montreal passing attack hit its stride in the second period for four consecutive goals, and after that it was just a case of holding off an uphill struggle by the Rangers.

Another rising team in the Canadian group, Toronto Maple Leafs, gave a display of their real class last night by defeating Ottawa for the first time this year and breaking the tie for third place in the division. The score was 4-0, marking the first shutout Ottawa has suffered this year.

In the American group, it is sufficient to say Boston won. The Bruins now have fourteen successive victories to their credit by virtue of last night's 4-3 victory over the lowly Pittsburgh Pirates.

Chicago hot on the heels of the New York Rangers and Detroit, which is almost as close to Chicago, continued their rivalry with a 1-1 tie.

Boston, Jan. 10.—Boston Bruins gained their fourteenth consecutive victory here last night by noosing out the Pirates 4-3 in a loose game filled with sloppy hockey. The Stanley Cup holders appeared bent on kicking away the contest, but the opposing puckmen, bossed by crippled Frank Fredrickson, played as if they had the same ambition.

The Line-ups
Boston—Thompson, Hitchman, Shore, Barry, Galbraith, Oliver.
Pittsburgh—Miller, Fraser, Smith, Lowery, Milks, Darragh.
Boston subs—Welland, Galt, Clapper, Owen, Carson, Mackay and Hutton.
Pittsburgh subs—McKinnon, Briden, Jarvis, White, Barton, Manners and Spring.

Summary
First period—1, Boston, Clapper (Welland) 9:20; 2, Boston, Carson (Mackay) 10:50.
Second period—3, Pittsburgh, Milks (Jarvis) 3:12; 4, Pittsburgh, Manners (Jarvis) 18:14.
Third period—5, Boston, Mackay (Carson) 11:42; 6, Boston, Oliver (Shore) 12:47; 7, Pittsburgh, McKinnon (Milks) 17:50.

New York, Jan. 10.—In one of the

Soccer Matches Called Off Due To Bad Grounds

Owing to the frozen condition of the playing fields, all football matches scheduled for to-morrow afternoon have been called off by William Thompson, president of the Saturday League.

hardest and roughest games of the New York National Hockey League season the Montreal Maroons beat out the New York Rangers last night, 5-4. The victory gave the Maroons a three-point margin of leadership in the league's Canadian group. Four successive goals, spaced at three-minute intervals during the second period gave the Maroons their margin.

The Line-ups
Rangers—Roach, Borgess, Johnson, P. Boucher, W. Cook, P. Cook.
Montreal Maroons—Walsh, Dutton, G. Boucher, Stewart, Smith, Seibert.
Rangers subs—Thompson, Murdoch, G. Boucher, Reimer, Gleditsky and Taylor.
Montreal subs—Robinson, Trotter, Northcott, Ward, Wilcox, W. J. Phillips, W. N. Phillips and Munro.
Officials—Cope and Batstone.

Summary
First period—No score.
Second period—1, Rangers, P. Boucher (W. Cook) 3:24; 2, Maroons, Munro (Stewart) 2:50; 3, Maroons, Northcott (W. N. Phillips) 13:45; 4, Maroons, Phillips (Dutton) 3:05; 5, Maroons, Smith (Stewart) 3:01; 6, Rangers, Cook (Borgess) 18:11.
Third period—7, Rangers, Reimer (W. Cook) 10:35; 8, Maroons, W. J. Phillips, 14:49; 9, Rangers, P. Cook (Thompson) 6:20.

Toronto, Jan. 10.—Tremendous last-minute spurt by Toronto Maple Leafs completely subdued Ottawa Senators here last night and gave the Leafs sweet revenge over the team which had twice defeated them and third place in the Canadian section of the National Hockey League.

The final score of the thrilling tussle was 4-0, with the Leafs scoring three goals in the final stanza and one in the first.

The Line-ups
Toronto—Chabot, Smith, Day, Primeau, C. Conacher, Jackson.
Ottawa—Connell, Clancy, Alex, Smith, Lamb, H. Kilrea, Finnigan.
Toronto subs—Blair, Nighbor, Bailey, Cotton, Bettinger and Duncan.
Ottawa subs—Cox, Shields, Gagne, Touhey, Connell and W. Kilrea.
Officials—Sprague Cleghorn and Jerry Goodman.

Summary
First period—1, Toronto, Smith, 5:11.
Second period—No score.
Third period—2, Toronto, Bailey (Cotton) 3:32; 3, Toronto, Blair, 8:10; 4, Toronto, Bailey (Duncan) 1:29.

Detroit, Jan. 10.—Fighting Black Hawk team that refused to give up, gained a well-earned 1-1 tie with the Detroit Cougars in a wild National League game here last night, the Hawks driving in the tying goal with only thirty-five seconds to go in the final frame.

The Line-ups
Detroit—Beveridge, Noble, Hicks, Hay, Goodfellow, Arie.
Chicago—Gardner, Dutkowski, Wentworth, Ripley, Adams, March.
Detroit subs—Bellefeuille, McCabe, Couture, Hughes, Cooper and Lewis.
Chicago subs—Gottlieb, Ingram, Couture, Arbour, Somers and Graham.
Officials—Mallinson and Denenney.

Summary
First period—1, Detroit, Arie, 13:09.
Second period—No score.
Third period—2, Chicago, Ingram (Gottlieb) 9:10.
Overtime period—No score.

HARD-HITTING WESTERNERS

By JIMMY THOMPSON

WINNIPEG'S BIG BET IN THE CANADIAN HEAVYWEIGHT DIVISION—HE LOOKS O.K. AT THAT

Winnipeg apparently is to be Canada's Mecca for heavyweight leather-punchers as Toronto has the undisputed leadership in the flyweight class, while Vancouver and Victoria produce 'em in between, such as McLarnin and Townsend.

A hard-hitting pugilist and a hard-hitting boxer, Steve Trojack has transferred his field of activity from the gridiron to the professional fighting. The giant young Winnipegger made his debut in the moneyed ranks on December 4 when he uncorked a terrific punch in the third round of his bout with "Kid" Spindra and was rewarded when the Pacific Coast negro was knocked out.

Trojack battered his way to fame with the St. John's rugby team this season. Playing his second year with the Saints, the nineteen-year-old husky produced a bone-crushing line plunge that was the terror of opposing scrummers. He performed at inside wing and was a mighty big help to the team as they successfully defended their Manitoba grid crown.

Steve won the Manitoba amateur heavyweight boxing title in 1928 and showed so much skill as a leather-puncher that he was persuaded to jump to the pro division. Jack Peppin, his manager, who developed Angus Snyder, discreetly admits that Trojack shows more promise than Snyder did in his first year of pugilism. If so, the fighting grinder may be dusting his knuckles on the door of fame in the cauliflower industry before long. Steve tips the beam at 192 pounds in fighting tugs and presents six feet one and a half inches of concentrated power.

LEO P. FLYNN SCORES KNOCKOUT WHEN HIS FIGHTER REFUSES TO GO THROUGH WITH BOUT

NO WONDER Leo P. Flynn gets away with his strenuous job of running perhaps the world's biggest stable of boxers, working all over America. In his first year as a manager, he even turned fighter to meet an engagement—and got away with it.

Flynn's first fighter, according to the story Jack Keirns tells me, was a Jack Robinson of Chicago. Flynn booked him for two fights on successive nights; one with "Bull" Hurley in Chicago, the other with Joe Reagan in Glynn Falls.

Robinson knocked out Hurley, and he and Flynn started for Glynn Falls. On the train Robinson made trouble about the railroad tickets from Glynn Falls to New York. The quarrel was climaxed when Robinson got off the train at a station and disappeared.

Flynn was resourceful then, as now. Why not impersonate Robinson and get the fighter's as well as the manager's end of the purse?

ARRIVING at Glynn Falls he sought out the promoter. Rather than take a chance on meeting someone who knew him or Robinson, he told the promoter he was beating Hurley last night," he said. "Want to give me my best effort."

At the arena that night, when Reagan came out of his corner, he struck such a funny pose that Flynn decided to take a chance. He let go a punch and Reagan almost broke his back trying to duck it. Then he feinted with his left and slapped Reagan's cheek with his right hand open.

That slap seemed to take the fight out of Reagan, and a moment later, when Flynn took a long swing, Reagan went down and out.

A FEW days later, the Glynn Falls promoter came to New York. He said, "How are you, Robinson?" he said. "I've another fight for you."

While they were talking, up came Robinson—the real Jack Robinson. "I was just trying to get Robinson here," said the promoter, pointing to Flynn. "To fight in Glynn Falls again. He made a hit when he beat Reagan."

"That's not Robinson—I'm Robinson!" shouted Jack Robinson. Flynn drew the promoter away, explaining that Robinson was a crackpot who liked to pose as prominent fighters.

"Harmless, you know, but daffy," said Leo P. The promoter understood. But he never got Flynn to fight again in Glynn Falls. Leo had too many other engagements.

Mandell to Meet Quintero at Miami In Non-title Bout
Miami Beach, Fla., Jan. 10.—Sammy Mandell, lightweight champion, and Manuel Quintero topped off training yesterday for their ten-round non-title fight here to-night. The bout, to be held at the Miami Beach Kennel Club Arena, will open the series of major fight attractions scheduled for Miami's 1930 season.

Both principals went through light workouts yesterday, neither attempting any sparring. Both said they felt in fine shape.

SOCCER MEETING

A meeting of the Maple Leaf juvenile football team will be held to-night at 7:30 o'clock at 919 Caledonia Avenue.

Townsend Forced To Limit To Gain Draw With Ritchie King

Canadian Lightweight Champion and Los Angeles Battler Engage in Slashing Ten-round Bout; Many Figure King Should Have Been Awarded Decision; Townsend Went Down Twice for No Counts; Judges Disagree While Referee Casts Vote in Favor of King.

Vancouver, Jan. 10.—The official decision in the Ritchie King and Billy Townsend fight at the new Auditorium last night was a draw. The way the shots were called ran like this:

Bert Alex called it a draw, Tom Harnett called it Townsend's fight, and Gil Martin called it for King.

It was a slashing go all the way and both boys were very evidently out for a "kill." To some newspaper writers it looked like six rounds for King, three for Townsend and one even.

N.B.A. WILL NOW GOVERN WRESTLING

3,500 Mat Artists Are Affected By Latest Ruling of Boxing Association

Champions Will Have to Defend Their Titles Three Times a Year

Cincinnati, Jan. 10.—Wrestling, a profession which never recognized any national affiliation and frequently witnessed many muddled championship situations, was placed to-day by the National Boxing Association on the same organized basis as all governed sports.

M. J. Deane, president of the N.B.A., which has year before last made its jurisdiction, announced that effective immediately, all wrestlers are subject to the benefits, championship awards, suspensions and discipline of the National organization. About 3,500 wrestlers are affected.

High spots of the N.B.A. wrestling requirements call for defense of championships three times a year, posting of title appearance forfeits ranging from \$2,500 to \$5,000, public bidding by promoters for the privilege of staging championship bouts, wrestlers to accept terms of the highest bidder, national champions to be decided in decennial classes by April, 1930, and championship entries to be matched by public drawing.

Ohio Five's Play Tricks Rivals

By SOL METZGER

The fan can more quickly pick up the finesse of basketball in watching out-of-bounds plays than in any other way. Here the players are really at work. Watch those who have a ball. Note their moves. It's some job to insure that they will get the pass in from their out-of-bounds man.

Here's an Ohio State out-of-bounds play that is traveling over the land like wildfire. No. 1 has the ball out-of-bounds. Coach Olsen works two stunts. If No. 4's opponent is covering him like a hawk, then No. 4 works this play. He drives for the basket, draws his opponent in ahead of him and then shoots. First time it's the proverbial dollars to doughnuts that No. 4's opponent will not drive in toward the basket so quickly. Result—No. 4 drives past him, and has an easy one-hand push shot for the basket. To-morrow—a Princeton out-of-bounds stunt that's real good.

WRISTS BIG FACTOR IN BADMINTON PLAY

By JACK PURCELL

Canadian Singles Badminton Champion

The difference between a good badminton player and an average player is usually represented in the quality of their respective wrist work. On account of the lightness of the implements used, the wrist called upon to do more work by itself than in almost any other game, and good wrist action is a most important factor in the game and must be developed thoroughly by the player who would be successful.

Condition of the muscles of the wrist is usually represented in the quality of their respective wrist work. On account of the lightness of the implements used, the wrist called upon to do more work by itself than in almost any other game, and good wrist action is a most important factor in the game and must be developed thoroughly by the player who would be successful.

The action of the wrist is used to govern the pace of the bird, and a player who has paid strict attention to the development of his wrist work is enabled to increase or decrease the speed of the flight with little apparent effort. Using practically the same arm swing he is capable of executing a very delicate drop shot or a sizzling forehand drive by simply changing the

condition of the muscles of the wrist.

player, in their title match. Sonnenberg won two of the three falls, obtaining the final when McCoy stumbled to the mat while swinging him with an aeroplane whirl.

The pair are Otto von Porat, betting Norwegian from Chicago, and Paulino Uzcudun, the Basque woodchopper. Von Porat is a 7-to-1 choice to win, and even is favored by a few to score a knockout.

A wild smash that floors anybody, but the referee, will lift the Garden potentates from their chairs, but not in admiration. With Phil Scott already signed to battle the Boston salt-marman in the southern resort on February 27, a knockout by any leading heavyweight at this stage of the game can do the Garden nothing but harm.

HORSE RACING
Agua Caliente, Jan. 10.—Infinity owned by La Bru stable, had an easy triumph in Agua Caliente's feature, the Loma Portal Purse, yesterday. Mrs. J. A. Pearson's Beth's Hope was second.

W. B. Finnegan's Dr. Wilson third. Infinity, an odds-on favorite, made good time for the six furlongs over a muddy track. Rain, which continued all afternoon, hampered the running of the program.

Results follow:
First race, two furlongs—1, Miss Baggage, \$500, \$2.20; 2, \$4.00; 3, \$2.20. Time, 1:23 4-5.
Second race, five and a half furlongs—1, Tamarind, \$7.00, \$3.50, \$4.20; 2, Coburn, \$4.20, \$2.40; 3, Anita, \$11.00. Time, 1:09 1-5.

Third race, five and a half furlongs—1, Jim Bethel, \$7.00, \$4.40, \$5.0; 2, Dr. Charlie, \$5.20, \$3.20; 3, Pandion, \$6.20. Time, 1:10 1-5.

Fourth race, mile and a sixteenth—1, Battle On, \$5.20, \$3.20, \$2.20; 2, Shasta Rock, \$5.00, \$2.60; 3, Russell Gardner, \$2.20. Time, 1:23 4-5.

Fifth race, six furlongs—1, Infinity, \$3.20, \$2.00, \$2.20; 2, Beth's Hope, \$3.60, \$2.80; 3, Dr. Wilson, \$2.20. Time, 1:13 4-5.

Sixth race, six furlongs—1, Brud, \$4.00, \$2.40, \$2.20; 2, Calista, \$2.80, \$2.40; 3, Flying Express, \$6.80. Time, 1:16 2-5.

Seventh race, seven furlongs—1, Ideals, \$6.80, \$5.40, \$3.60; 2, Forecaster, \$6.00, \$3.40; 3, Whizster, \$3.00. Time, 1:31.

U. S. Must Cancel War Debts To Aid Own Export Trade

Prof. T. H. Boggs of U.B.C. Advances Views in Extension Lecture Last Night

Gives Sound Economic Reasons Supporting Apparently Altruistic Move

Solution of the problem of Inter-Alleed war debts and reparations through the cancellation, by the United States, of loans made during the war was advocated by Prof. T. H. Boggs of the University of British Columbia in his lecture before the University Extension Association last night.

Throughout the United States, the speaker stated, there was a general realization that its trade, commerce and business would suffer unless outside countries were relieved of the burden of debt paying.

Summarizing the situation Professor Boggs noted that there was a great incompatibility between the twin policies of the United States in seeking greater foreign markets, while they retained their high protective tariff and attempted to collect debts from nations who had borrowed from them during the war.

LITTLE APPARENT IMPROVEMENT

Opening his address the speaker noted that from a cursory study of the problem of reparations and payment of war debts it appeared that the world was little closer to a solution than it was eight years ago. However, after considering the various movements being put forward, he expressed the hope that the question would be settled through cancellation on the part of the United States.

This would come about, not only through the moral obligation felt by the country for the Allies who had been forced to borrow in order to continue the war, but from practical reasons.

He spoke of the origin of the debts, saying that they were contracted by the Allies who were forced to borrow money from the United States in order to purchase materials required during the conflict from that land. In this way approximately ninety per cent of the amount was borrowed.

LEGAL, NOT MORAL

The collection of this money was strictly legal, he stated, but not exactly moral. To illustrate his point, he referred to the drop in the price of material since the war, showing that whereas the Allies had made their purchases when prices were high, they were forced to pay back dollar value when the materials were sold at a lower price.

He then referred to the proportion of the eleven billion dollars due the United States as a result of the borrowing, showing that Great Britain was called in 1922, to pay \$4,500,000,000; France \$3,500,000,000, and Italy \$1,500,000,000, while the remainder was divided among the smaller countries involved.

Through special arrangements with the United States an agreement had been made whereby this would be paid back in annual instalments over a period of sixty-two years, he pointed out. Certain reductions in the gross amounts had been made, he added, but these were not considered by everyone as equitable.

DEBTS NEGLIGIBLE TO U.S.

The virtual negligibility of the collections to the United States economically was stressed by the speaker, who pointed out the fact that whereas the gross collection of debts during one year amounted to \$225,000,000, the gross income of the country was over \$60,000,000,000. He stated that the debt collections to be little more than one-quarter of one per cent of the country's annual income.

Hence the collection would have little bearing on the economic condition of the United States while it would be a tremendous burden on the less opulent debtor nations, who were also struggling to regain their economic standing.

He then stated that the only manner in which the debt could meet the payments would be in goods or service.

It was the case with the German reparations question, it was necessary to re-establish the debtor countries before they could return the loans.

WOULD INTENSIFY EXPORTS

To meet their obligations the debtor would need an export surplus, he continued. This would have to find some foreign market, not in the United States, since that land was protected

Increase Your Weight 5 Pounds 30 Days Or Money Back

Doctors and good pharmacists know that Cod Liver Extract is full of vitamins that make flesh, create appetite, build up the power to resist disease and puts good solid flesh on skinny men and women.

So now men and women who keep up with thin times are taking McCoy's Cod Liver Extract Tablets—rich in flesh producing, health building, strength creating vitamins and as easy to take as candy.

So why not start to-day? Why not fill out those deep hollows in neck, cheeks and chest? Why go on through life with sunken cheeks and narrow chest when you can take advantage of this straightforward offer.

Try them for 30 days if you want to gain five pounds or more. And bear this in mind: if they don't help you in that time McCoy's Drug Co., Vancouver Drug Co., Owl Drug Co., or any druggist anywhere is authorized to return your money—but demand McCoy's, 50 tablets, 60 cents.

(Adv.)

with a tariff too high to be overruled.

Economists from the United States had realized this difficulty and had noted its result upon trade in their lands, the speaker continued. Hence they had put forward conciliatory motions, going so far as to suggest debt cancellation.

Expressing one argument in favor of this course, Prof. Boggs advanced the theory of one United States economist. Collections of the debt, the latter maintained, would mean the importation of more goods into the United States. This in itself would embarrass United States industries, the argument continued. Moreover, to meet the payments, the allies would have to seek intensive foreign trade and, there again, they would run up against United States competition to the detriment of both. Still another beneficial result of cancellation would be found in the greater buying propensities of the people of Great Britain. The speaker would have more money to put into United States products and would make in their country a greater market for goods from that land.

MORAL ARGUMENTS

From a moral point of view cancellation was approved by F. W. Taussig, professor of economics at Harvard, whose contentions the speaker voiced. Prof. Taussig had appealed to the people on the grounds that loans made during the war were not contracted from the point of view of investments, but rather support to the allied cause before the United States entered actively into the conflict. Consequently the Harvard economist had urged cancellation on the ground that the States had merely done their duty by issuing loans.

Reading from General Pershing's address in Detroit in 1926, Prof. Boggs advanced another argument for the wiping off of debts. According to the commander-in-chief of the American Expeditionary Force, the entry of the United States into the war would have been late unless the allied lines had held the Germans for fifteen months after the United States had declared her intention of going to the aid of the Allies. Had these lines not held, the war might easily have been won by Germany. Consequently, General Pershing also considered the part played by his country in loaning money a substitute for the men whom he thought should have been at the front earlier.

Quoting Prof. Seligman of Columbia University, Prof. Boggs added weight to his argument by showing that the United States were the only beneficiaries of German reparations.

TARIFF POLICY OUT OF DATE

Turning to the tariff policy of the United States, the speaker then showed how this was interlinked with the question of war debts as far as American prosperity was concerned. He noted that the high protection policy had been adopted by the country in 1922 when the majority of its exports were agricultural products. Since then they had changed to manufactures and had come into direct conflict with the exports of other countries. There was no longer a necessity to see that industries of the country were protected from dumping of other manufacturers. Hence, with a tremendous surplus of made exports, the United States was faced with an open door policy whereby she could rid herself of the extra produce of her manufacturing centres. Still, however, Prof. Boggs stated, she retained her high protection tariff.

CAUSING RESENTMENT

This in itself was causing increasing resentment abroad and was giving concrete evidence of a lack of opportunity to further their exports in foreign lands.

He repeated his statement that the debtor European nations could only find the wherewithal to pay by increasing their exports and showed how they were coming into bitter trade rivalry with the United States abroad. Not only have we greatly increased our sales and wages to disabled ex-service men, but this has been accomplished at a reduced per capita cost.

While he realized that the mass of the people were, at present, opposed to any such course, he stated that the reaction of the masses to the cutting of their own throats by condescending to demand payment of debts, was leading the economists and big business men of the United States to advocate cancellation.

He then stated that the only manner in which the debt could meet the payments would be in goods or service.

It was the case with the German reparations question, it was necessary to re-establish the debtor countries before they could return the loans.

WOULD INTENSIFY EXPORTS

To meet their obligations the debtor would need an export surplus, he continued. This would have to find some foreign market, not in the United States, since that land was protected

CATHEDRAL GUILD CHOOSES OFFICERS

Annual Meeting of Men's Guild of Christ Church Held Last Night

The annual meeting of the Men's Guild of Christ Church Cathedral was held last night in the Memorial Hall, with Capt. W. Brown presiding. Annual reports showed a favorable balance on hand, and progress made during the year along many lines. Dean Quinlan was tendered a vote of thanks for his services as lecturer during the year.

In the election of officers Mr. Figueredo was chosen president; Mr. Dallan, first vice-president; Mr. Stone, second vice-president; Thomas H. Hadfield, secretary; Mr. Furlingham, treasurer; an executive committee was named, including Messrs. Brown, Stevens, Alder, Prior, Wellburn, Bradburn, Jones and Nelson.

A. R. Merrick gave an interesting address on "Robert Halkes, the Founder of Sunday Schools."

NELSON ELECTION

Nelson, B.C., Jan. 10.—Nelson is assured of a contest for the mayoralty next when voters go to the polls January 16. Mayor R. D. Barnes, just completing his second term, is standing for a third term, and J. A. McDonald, ex-mayor and former member of the Provincial Legislature, is opposing him.

IN JAMAICA

IN this prosperous island, with a population of approximately one million, and now linked more closely with Canada through improved steamship service, The Bank of Nova Scotia has been established for over 40 years.

Special tariff preferences are given to a large number of Canadian products and the sentiment of the people is favorable to Canada.

The twelve Branches of the Bank well located at Kingston and the other principal places of the Island (see map) are fully equipped to handle all banking transactions in connection with Jamaican trade.

Canadian manufacturers, exporters and importers interested in Jamaican trade will receive every possible assistance from any of our Canadian branches.

WORKSHOPS OF RED CROSS HAD RECORD YEAR

Annual Report to Committee Shows Fine Achievements Since Inception

Additional Accommodation and Greater Public Support Desired

The splendid achievements of the Red Cross Workshop since its inception in Victoria in 1921 to the end of the year 1929 was reviewed in an interesting report presented to the Red Cross Workshop committee last night by S. H. Okeill, manager.

The report showed growing success for the products turned out by the shop, and increasing support by the public. Present premises occupied on Johnson Street are inadequate, and additional accommodation is to be sought. Mr. Okeill's report is as follows:

"Since our inception each year has shown improvement, and it is very gratifying to be able to report that 1929 is no exception. It is the best in our history. Not only have we greatly increased our sales and wages to disabled ex-service men, but this has been accomplished at a reduced per capita cost.

"The carpenter shop continues to care for the greatest number of men. Here anything can be made to order—tables, bookcases, chests of drawers, kitchen cabinets and so forth. Also furniture repairing of any description. Men are also sent out to do any job such as shelving, office fixtures, built-in furniture, fences, sidewalks, steps, etc.

"Painting and polishing takes care of one, sometimes two men. One man is kept fairly well employed in picture framing. We have a splendid upholsterer in the shop, but insufficient work has been received to keep him continually employed in this line.

"The basket shop has had a good year employing from six to twelve men. Here wicker baskets are made, chairs repaired, rush-seating done, etc. These same men, with the help of other very seriously disabled, also make all the poppies and wreaths for the Armistice.

for the whole of British Columbia. I cannot pass without giving these men a special word of praise for the manner in which they worked overtime for three weeks continuously before Armistice so as to turn out orders. We have of file many letters congratulating us on our workmanship and service. It is indeed gratifying to know we gave entire satisfaction.

BUSINESS GROWS

"The following figures will show how this business has grown: 1927, poppies made, 65,000, wreaths made, 200; 1928, poppies made, 80,000, wreaths made, 467; 1929, poppies made, 208,850, wreaths made, 1,012.

"We have already started to make poppies for the 1930 campaign. We want the public to know that when they buy a poppy or wreath at Armistice time they are helping to furnish employment for many disabled men throughout the whole year in our shops besides providing funds for the relief of cases of distress among returned soldiers and their dependents. The sale of poppies and wreaths and the administration of funds is well and carefully handled by the Armistice period committee in Victoria.

"The tin shop has grown very materially. Three years ago one man only was employed, now five men are continually at work making wire lamp frames, tin-smithing and small gas-fitting iron work. We make all the flower vases used at the Royal Oak Burial Park, and during the year we also turned out for the wholesale trade no less than seven miles of stove pipe, and are told it is the best product ever handled here.

MORE AND BETTER WORK

"In every department we are doing more work and better work. We are becoming better and more favorably known, but in order to continue to progress we must obtain more public support. We supply the shop and the workmen, the public must supply the materials. As the years go by more men are breaking down in health as a result of their war service and looking to us for sheltered employment. Continually we can take care of more work.

"The real good done cannot be computed in dollars and cents, but the following figures will show our progress from a straight commercial basis: Average monthly cost to the Victoria Red Cross Society, \$239.87. Wages paid to disabled soldiers in 1929, \$14,833; 1928, \$18,191; 1927, \$20,735; 1926, \$22,739; 1925, \$22,960; 1924, \$26,367 and 1923, \$29,744. Increase 1929 over 1923, \$3,769.93, or 12.81 per cent. Total sales during year in 1929, \$24,047; 1928, \$16,833; 1927, \$19,358; 1926, \$22,478; 1925, \$23,820; 1924, \$27,742; and 1923, \$33,985. Increase 1929 over 1923, \$6,242.33 or 22.50 per cent.

"Average monthly loss per man (175 hour basis): 1923, \$44.06; 1924, \$37.03; 1925, \$35.47; 1926, \$34.20; 1927, \$33.58; 1928, \$30.06, and 1929, \$27.23.

"The practice of paying all employees on a straight basis, all employees on the roll of the shop. Five new men were taken on during the year. Three discontinued, two to take up work outside and one owing to severe disability. Since the shop started in April, 1921, there have been ninety-two men employed. Of these twenty-five have left

A FREE SACK

Pembina Peerless C-O-A-L

With Every Half-ton Trial Order Sold Only by

F. T. TAPSCOTT Phone 596

to take up work outside, five have died, twenty have resigned for various reasons, one is working at home, with forty-one still in the shop. The average pension of men now employed is \$4.51 per cent. Of these seventeen are fifty per cent or over. Only eight are under twenty-five per cent.

"It is interesting to note the Red Cross Society is caring for three men entirely on their own, without any Government assistance.

"Very cordial and satisfactory relations have been maintained with the Department of Pensions and National Health, also the Veterans' Shops of Vancouver and Toronto.

"Grateful acknowledgment is made to both the daily papers for their generous publicity and other courtesies extended.

SUPPORT APPRECIATED

"I would like to thank the general public for their generous support, also the men of the shop for their continued loyalty and effort. Without both we can get nowhere. We must turn out satisfactory work in a reasonable time and at a reasonable cost, then we cannot help but continue to progress. Let us all resolve to increase our efforts to make the coming year bigger and better than ever.

"The workshop committee consisting of F. W. Jones, chairman; Mrs. Harold Fleming, president of the local branch of the Canadian Red Cross Society; W. L. Morkill, G. H. Dawson and the Bishop of Columbia have continued to tirelessly supervise the operations of the shop, and I would like to thank them for their great helpfulness at all times.

"We again find our premises inadequate, and plans are already under way for providing more accommodation. We look to the future with optimism," concluded the report.

TRAPPER COMES FROM B.C. WILDS

New Westminster, Jan. 10.—Marcus Cox, a trapper, who had been reported missing in the forest country north of Pitt Lake, arrived here safe and well Monday noon yesterday. Mr. Cox stated he had not been lost. The snow had been too deep to permit him to come out about Christmas Day as he had intended and he had stayed a few days longer because he had a number of animals trapped.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficiency way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist. (Adv.)

Horoscope

SATURDAY, JANUARY 11, 1930

Astrologers read this as a day of many conflicting planetary influences in which benefic aspects dominate.

The early morning is believed to be an auspicious time for selling and for initiative in certain lines of business.

This should be a lucky day for those who look for any sort of work. It is a time in which to make effort to improve one's financial status.

Analysts of the stars seem to promise increase of success and influence to those who have already attained prosperity.

It is not a favorable way for certain lines of industry. Discontent may develop under circumstances that soon will change.

While this rule prevails the mind should be open to suggestion and keen of vision regarding future progress in any line of activity.

It is a day to plan and to see prosperity in its greatest possibilities, for the stars promise tremendous commercial achievement.

Women are subject to inspirations and stimulating forces that encourage them in sane thinking and wise living.

The seers foretell a return to serious limitations on the part of careless men and women who have reaped of pursuing pleasure.

The planetary government is suspicious for merchants and manufacturers. Art is to enter into business and new shops are to be opened.

The events are favorable for meetings of statesmen or officers concerned with public policy.

There is a promising direction of the stars for the signing of agreements and contracts. International peace is indicated.

Persons whose birthdate it is have the assurance of much success in the coming year.

Children born on this day probably will be able to overcome ordinary mortalities and should be carefully guarded. Many orations are born under this sign, which also inspires courage.

(Copyright, McClure Newspaper Syndicate)

Costly Touch

When you buy a cheap silk stock, if you will take out the machine stitching around the neck, cuffs and hem, and do it over carefully in fine hand-stitching, you will find it will look like a much better stock.

Sagging Floors

If your floors sag, you can cover the cracks either by moving the molding down a little on the baseboards or else buying wider moldings to cover them up. Either improves the appearance.

Fruit Juice

Save all juices from canned fruit. It is excellent in gelatin or to make fruit sauce for cottage pudding for the children's supper.

Road, Poll and Dog Taxes

For Year 1930

Are Now Due to the Corporation of the City of Victoria, B.C.

To Owners of Dogs

All owners of dogs are required to register them in the City Treasurer's Department, and to pay the yearly tax by January 15, 1930. Where the conditions are complied with, proceedings will be taken against delinquents. The expression "owner" includes every person on whose premises a dog is harbored.

GENERAL MOTORS SHAREHOLDERS

NEARLY TREBLED

In connection with the distribution of an extra common dividend of \$13,000,000, shareholders in Victoria of General Motors have just received a letter from Alfred P. Sloan, president of the corporation, informing them that sales of the organization during the fiscal quarter of 1929 were in excess of the same period of 1928.

"It is exceedingly pleasing to me," Sloan wrote, "to be able to state that the total number of General Motors stockholders has increased during the past year from 71,000 to approximately 300,000. This indicates a confidence in General Motors and its policies on the part of the investing public, which is very gratifying to the management. Since this increase has been especially marked during the last sixty days, it seems appropriate at this time to say a few words regarding our recent progress."

"During the last few months there has been an important widening in the scope of General Motors activities. We have made certain investments for the purpose of strengthening our position in the automotive industry. We are now identified with the aeroplane industry through interests in the Buick Aircraft Corporation of America. We have entered the field of radio by association with the Radio Corporation of America through the organization of the General Motors Radio Corporation. These acquisitions, together with the important developments that have taken place through the Frigidaire Corporation have resulted and will further result, through natural evolution, in an increasing diversity of General Motors activities and should accomplish a more effective capitalization of our manufacturing plants and equipment, our organization and our extensive distributing system throughout the world."

"It must, however, be fully recog-

nized that General Motors is engaged primarily in the automotive business and its affiliated industries. Its success is importantly linked with that of the manufacture and sale of motor cars. The automotive industry rests upon the most solid of foundations— that of transportation. Next to food, shelter and clothing, man's greatest desire is the ability to move from place to place.

"The modern motor car for the first time in the development of civilization brings individual transportation well within the reach of the masses. Through its agency distance is largely eliminated. Communication is facilitated. Time is saved. Thus the automotive industry may well be considered in reality a public utility, embodying the same fundamentals as are enjoyed by our railroads, electric utilities, the telephone and the telegraph."

"The automobile replacement market, negligible up until the last few years, has injected into the industry a stabilizing influence of prime importance. With an increase in the world use of motor vehicles to over 30,000,000 and an upward trend in the number of new owners, the newer markets of the world, our studies indicate a stabilization of the American industry at around five and one-half million bicycles a year to be reached within the next few years. In addition to this it is reasonable to expect increases from year to year through the natural progress of population and growth."

"The production of motor cars during the last quarter of 1929 was on a reduced scale as compared to the previous period of care at retail, after all, the only real index as to the position of the industry. The last quarter of the year is also low from the production standpoint because of the custom of readjusting plants and equipment incident to the revision of models for the new year. The trend is toward more and more of such change-taking place at the end of the year."

"General Motors retail sales during the last quarter of 1929, so far as can be ascertained at this writing, somewhat exceed the corresponding quarter of 1928. Furthermore, although complete figures are not available at this writ-

ing, our total retail sales for 1929 were practically the same as our record performance of 1928.

"With a sound financial position, an effective organization, General Motors enters the new year with the expectation of obtaining its full share of the business that may be available."

DOMINION-WIDE FISH AND GAME BODY NOW PLAN

(Continued From Page 1)

TO INCREASE WILD LIFE

Among its aims is the standardization of fish and game regulations throughout Canada, and its insuring wild life from extinction by encouraging the enactment of wise regulations by the Dominion and provinces toward this end. Other objects are to increase Canada's wild game resources by means of preserving and stocking and by introducing new species.

In urging the formation of this Dominion body Mr. Hayden says that the Dominion convention is necessary and desirable. Fish and game associations in every province have given us their decision as favoring such conference, it only remains to get the delegates together and to form a Dominion body. I am convinced that if this is done we shall have a financial support from the federal and provincial governments and private sources to carry on our work, which is essentially educational."

Allan G. G. McAvity of Saint John, president of the New Brunswick Fish and Game Association, writes to the Dominion Times as follows:

"What is needed is a national organization of sportsmen with headquarters at the seat of the national government in Ottawa. With a thorough organization half a million supporters could be enlisted throughout the Dominion for active work in the conservation of fish and game. Wherever the sportsmen of Canada have organized provincially, reports show that splendid work has been accomplished. What has been accomplished in the provinces in such comparatively short periods of real activity should be an inspiration to all good sportsmen to enter the organization of the Dominion Association, through which still greater things may be accomplished."

Crisp, of Port Coulongue, Quebec, is provincial secretary of the Dominion Association, and temporary offices have been established at room 920, 360 St. James Street, Montreal.

Following are some of the objectives of the proposed Dominion Fish and Game Association:

To save wild life from extinction in Canada.

To encourage the enactment of wise regulations by Dominion and by provinces to this end.

Not only wild life is meant not only the game birds, game animals and game fish, but all other useful birds, animals and fish.

To conserve Canada's wild life resources by means of preservation and by stocking.

To introduce new species of game birds, game animals and game fish to spread knowledge of Canada's wild life and its value as a national resource through the Dominion and Provincial governments, through the Dominion and Provincial fish and game associations, through the schools and colleges, through the press, through the various sports clubs and through any other reasonable and available agencies.

To encourage the establishing of fish and game sanctuaries, both Federal and Provincial.

To co-operate with the United States in respect of stocking and protecting international streams, capable of supporting game fish.

To secure the exchange of information between the provinces with regard to the results of stocking, protection and conservation efforts.

To encourage the exchange of fish and game birds and animals between provinces for their mutual benefit.

To discourage the market sale of game birds, waterfowl, game animals or their flesh and game fish.

To standardize the fish and game regulations throughout Canada.

To urge the destruction of vermin, which, in its turn, is destroying Canada's wild life.

To conserve the forests and to prevent forest fires.

To safeguard the wild life of Canada primarily for the benefit of the people of Canada.

To discourage the use of public domain or streams for private and selfish purposes.

To encourage the establishment of game fish hatcheries on an adequate scale in each province.

To urge the big land-owning companies, lumber companies and railway companies to set aside desirable areas as game sanctuaries; also lakes and sloughs as waterfowl sanctuaries.

To encourage farmers, ranchers and private and corporate owners of big land areas to establish game farms.

To encourage the study of the habits of game birds, waterfowl, big game and game fish with a view to gathering information which will assist the conservation and propagation effort.

To urge the establishment of Dominion and Provincial game farms, or, in the alternative, the use of part of each Dominion and Provincial demonstration farm for this purpose.

To encourage the study of regulations affecting fur-bearing animals with a view to standardization that will assure conservation and an increasing supply.

To prevent pollution of national and international waters which contain game and commercial fish.

INTRODUCE NEW GAME FISH

To introduce new game fish into Canadian waters.

To encourage bird banding.

To co-operate with the U.S. Biological Survey in respect of study of migratory birds and preparation of helpful regulations.

To make Canada the richest country in the world in respect to wealth of wild life and game.

To urge Dominion and Provincial governments to make surveys of Canada's wild life.

To urge the Dominion Government to make surveys of pest conditions in all its national parks with a view to more rigid control of such pests as are destroying useful wild life.

To arrange for reciprocity between provinces respecting fishing and hunting licenses, it to be understood that such reciprocity does not abrogate payment of fee in each province.

To investigate types of traps and fishing tackle reported to be unduly destructive to game and fish.

To investigate conditions under which visiting sportsmen from other countries bring in their guns, ammunition, dogs, fishing tackle, automobiles and other equipment.

To encourage scientific research into Canada's fish and game conditions.

Future Millionaire Was Not Afraid of Truth

Walter Gifford was awakened by the ringing of the fire alarm, and soon he heard the fire engine rushing by. Fires were always exciting, and this one seemed to be causing a great stir. He slipped into his shirt and trousers and ran out to look at the fire.

"Where is the fire?" he shouted to another boy.

"In the woods," the boy shouted back, and, as they ran together, explained where the fire had started. There were woods all around that town of Salem, and a forest fire, in dry weather, was serious.

Walter, as he listened, seemed to feel his heart tremble and drop right down to the bottom of his boots. That afternoon he and some other boys had been smoking a hedgehog out of its hole in the woods. He had been left behind to put out the fire. He had thrown dirt on it, but he had been careless. He knew very well how that fire, to which the engine clanged, had started.

He watched the flames and smoke spreading. All the town was in it was two days before, by constant lighting, the first was put out.

Walter felt that he was a criminal. He could not eat or sleep, because his conscience bothered him. So he gathered up his courage, walked into the town hall, and announced to officers in charge that he had started the fire. He thought they would put him in jail.

But he was surprised when instead they patted him on the head and called him a brave, honest boy.

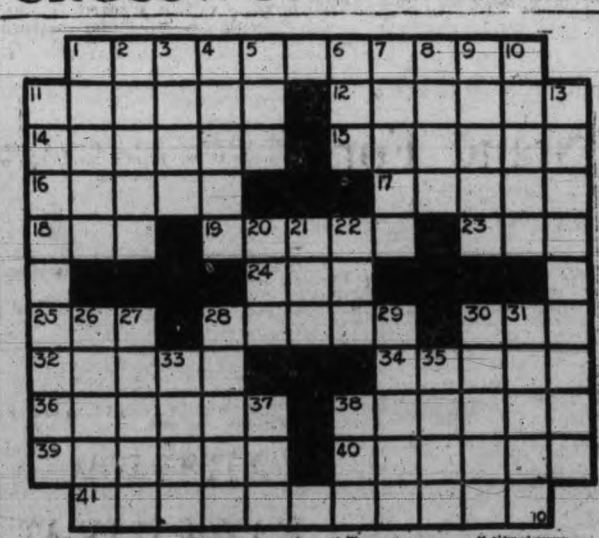

Walter Gifford, whose birthdate is to-day, became a famous business man and many times a millionaire. He is president of the great American Telephone and Telegraph Company.

C. G. E. Business

Gains 16 Per Cent

Toronto, Jan. 10.—The business of the Canadian General Electric Company during 1929, it is learned by the Financial Post, from D. C. Durland, the president, was increased about sixteen per cent over 1928. The profits in 1929, after taxes, depreciation and preferred dividends, were about \$16 per share on the common stock, and they are likely to be shown in the annual report, which is shortly to be forthcoming, to have been somewhat greater in 1929. The value of the company's business in the past five years has doubled. These figures give a clear idea of the position attained by the electric industry and serve to emphasize the fact that the volume and dollar value of electrical business done both in Canada and the United States in 1929 has been the greatest ever achieved in either of these countries.

While there has been a moderate recession in business, which will probably extend

OBITUARY

The funeral of Miss Amy Adela Selma Sweet took place from Hayward's B. C. Funeral Chapel yesterday afternoon at 2 o'clock, proceeding to St. Luke's Church, Cedar Hill, where service was conducted by Rev. S. Ryall, assisted by Rev. Canon Munns at 2:30 o'clock. The hymns sung were "Forever With The Lord," "Unto the Hills Around" and "Abide With Me," and as the cortege was leaving the church the hymn "Dimitis" was sung. Many friends were present and numerous beautiful designs were received and placed on the casket and hearse. The honorary pallbearers by the request of the late Miss Sweet were Magistrate George Jay, Phillip Gosnell, E. E. Wootton, and Keith Wilson. The active pallbearers were R. A. Wootton, Maurice Hills, H. T. King, H. T. Nation, Walter Burton, and A. D. Cress. The remains were laid to rest in St. Luke's Churchyard.

After a long illness, Miss Edythe Murtie, a former Victoria girl, passed away in Vancouver last night, aged twenty-seven years. The late Miss Murtie was a daughter of the late Martin Murtie of Victoria and of Mrs. Murtie, who is now residing in Vancouver. She is survived by her mother and five sisters, Miss Nina Murtie, Victoria; Mrs. E. A. Gregory-Allen, Vancouver; Mrs. V. O. Smith, Winnipeg; and Mrs. Crow and Miss Jean Murtie of Vancouver. Funeral arrangements will be announced later.

PRINCE RUPERT SUIT APPEALED

Produce Marketing Act Cases to Open on Monday in Appeal Court

On trial of the issue before Mr. Justice Fisher in the Supreme Court at Prince Rupert, the plaintiff-respondent was awarded \$1,750, and the defendant was awarded \$3,500 on a counterclaim for rent due. The defendant is appealing the finding on several grounds. Hearing continues with J. W. de B. Ferris, K.C., for the appellant, and Mr. Gonzalez for the respondent.

At the close of argument in Rex versus Henry Chow yesterday, judgment was reserved. Stuart Henderson appeared for the defendant-appellant and G. Black, for the Crown, respondent.

Friday versus the B.C.E.R., an appeal by the street railway company against a damage award in favor of Mrs. Elizabeth Vivian of Vancouver, will follow the case at bar. On Monday trial opens in a list of appeals under the Produce Marketing Act.

W.B.A. Review

Queen Alexandra Review No. 1, W.B.A., held its first meeting of the year at the E. or G. Hall, Government Street, on Monday. The installation of officers was postponed until next meeting. Mrs. O'Brien, provincial director, will be unable to be present. Mrs. Swanwick of Review No. 7 of Vancouver, was welcomed, as were also several local members, who had not attended recently. A wheel chair had been donated to the children's ward, Jubilee Hospital by the review, and was presented New Year's Day. The Christmas party held Friday, January 8, was much enjoyed. Mrs. Schmetz, convener, and was assisted by Miss Reid, Mrs. Bowden and Mrs. Balsam. A social will follow the installation at the next meeting, which will be held Monday, January 20, at 7:30 o'clock.

Three special concerts at the Empress Hotel this season, January 23, March 28, April 17.

NEWS IN BRIEF

The executive of the Victoria Model Aeroplane Club will meet in the Y.M.C.A. to-morrow morning at 9:45 o'clock.

Most fires at 1025 Verdader Avenue and at the intersection of Government and Cormorant Street were attended by the fire department to-day.

John Rothwell, sixty-year-old cyclist, who was knocked down by a car on Pandora Avenue Wednesday night, was still in a precarious condition in the Jubilee Hospital to-day.

When he caught his foot beneath a heavy stick of lumber, Low Yin, Chinese living in Victoria, which necessitated his removal to the St. Joseph's Hospital yesterday. Three toes were amputated. The man was employed at the Cameron Lumber Company.

Charged with obtaining \$10 by false pretences from W. J. Morrow, Horace C. Beaveridge was arraigned in City Police Court this morning and remanded until to-morrow on his own request. He was also charged with dealing with a forged cheque as if it were genuine.

A reunion of former residents of Balfour living in Victoria will be held next Tuesday in the Crystal Garden banquet hall. A short programme will follow the dinner, during which several living in Victoria and in British Columbia will show some excellent reels of moving pictures.

A roof fire at 870 Old Esquimalt Road brought out the Esquimalt fire department at 9:40 o'clock this morning. The damage was slight. Smoke issuing through the roof of a furnace at 816 Anderson Avenue, resulted in the department being called out at 6:30 o'clock last night. No damage was done.

The local branch of the Amputations' Association held their annual general meeting and election of officers last evening, resulting in the following officers being appointed for the present year: President, A. Palmer; first vice-president, J. Davey; second vice-president, J. E. Madock; secretary-treasurer, A. M. Horne; executive officers, R. Walls, H. R. Riches, T. Costello, F. Sargent and A. E. Fallowe.

Argument resumed before Mr. Justice Gregory in Supreme Court to-day in the action of Charles Larson vs. W. J. Morrow, a claim for the share of the estate of the late William Morrow, deceased.

Trustee J. L. Brooks of the Sanich School Board was last night endorsed for re-election at the annual meeting of the Sanich School Board Association, held at Keating Temperance Hall. Mr. Brooks was asked to stand for another term after he had presented a billiard table which he had purchased for the school. The board had also endorsed for support for the two money-bills to be voted on next week. His nomination, proposed by W. D. Mitchell and H. E. Tanner, was unanimous.

ROYAL OAK A.Y.P.A. MEETS

New Officers are Installed by Church Organization

(Special to The Times)
Royal Oak, Jan. 10.—A meeting of the A.Y.P.A. of St. Michael's Church was held in the parish hall Wednesday night with a full attendance of members and several visitors, including Mr. J. W. de B. Ferris, K.C., for the appellant, and Mr. Gonzalez for the respondent.

The following officers were installed by Rev. P. Conley: President, Miss Dora Young; vice-president, Miss K. Butt; secretary, Miss K. Griffen; treasurer, Miss Rosa Stone.

Rev. Mr. Conley advised the meeting that he had a game of bowls and billiard table which he would place at the disposal of the organization.

Maurice Foster rendered a piano solo, which was followed by games and refreshments. The next meeting, which will be literary, will be held on January 22.

Dr. and Mrs. Hammond of Detroit, Michigan, were the guests of Mr. and Mrs. A. E. Camplin on Wednesday.

Winter Visitors

C. L. Lewthwaite, superintendent of the Pacific Mills, producer of pulp and paper, at Ocean Falls, came to Victoria to-day to take up business with departmental officials at the Parliament Buildings.

A. B. Cathwood, contractor, is over from Haisla, B.C.

Mr. and Mrs. James Ramsay, of Edmonton, accompanied by Mrs. Smith, arrived at the Empress Hotel on a winter holiday.

Mrs. M. L. McDermid is over from Vancouver for a few days.

From Portland, Oregon, there have arrived Mr. and Mrs. E. R. Borbett and Dr. E. W. Rocky and Mrs. Rocky. They are at the Empress Hotel.

PIONEER OF NANAMO DIES

Arthur Owen, Piano Tuner, Was Well Known in District

(Special to The Times)
Nanaimo, Jan. 10.—Old-timers of Nanaimo will learn with regret of the death yesterday of Arthur Owen, a resident of this city for nearly forty years.

A piano tuner by profession, Mr. Owen had occasion to call upon many Nanaimo and outside residents, with whom he was popular.

During the early years of his residence in this city Mr. Owen was prominent in cricket circles. He was a first class cricketer and it is probably due to his efforts more than to any other individual that the Nanaimo Cricket Club has made such an enviable record in the last twenty-five years. He was born in England seventy years ago. The funeral will be held on Saturday.

Three special concerts at the Empress Hotel this season, January 23, March 28, April 17.

BAIL ASKED BY FORREST

Application Made on Behalf of Man Committed on False Pretences Charge

Argument to Be Resumed This Afternoon Before Mr. Justice Gregory

Argument on an application for bail for John Haddock Forrest opened before Mr. Justice Gregory in Supreme Court Chambers this morning, and was adjourned.

The defendant was committed for trial in a preliminary hearing in the City Police Court yesterday, on a charge of obtaining \$100 by false pretences from John W. Coos.

The circumstances were said to revolve around the promotion of the sale of stock in the Victoria Electric Syndicate, which was to control patent rights to an electric pump said to have been invented by the defendant. The prosecution alleged that Mr. Coos had invested on the strength of representations made by the defendant.

The application for bail was made by Henry C. Hall, K.C., who asked the release of the accused pending trial on bail in the sum of \$100. The hearing would go on in about a week, stated Mr. Hall.

W. J. Morrow, K.C., for the Crown, opposed granting bail in the sum named. There was a possibility, he had been informed by the City Prosecutor, that the defendant might be charged with the sum of not less than \$1,000.

Mr. Justice Gregory postponed the argument on the application, for additional material. Hearing will be resumed this afternoon.

PROBLEM OF WATERWORKS DISCUSSED

Nanaimo Mayor Calls Special Meeting to Consider Vexatious Question

(Special to The Times)
Nanaimo, Jan. 10.—Over 150 people attended a public meeting called last night by Mayor F. Busby to discuss the vexatious question of the waterworks. The meeting was presided over by H. B. Muckleston, M.E.I.C., who was the chief speaker. The meeting was held in St. John's Ambulance Hall.

Mr. Muckleston was called upon to discuss the waterworks problem by Ex-alderman Hickman and Alderman Hart. Ex-alderman Murray Plant and H. McRae were also among the questioners.

It was clear from the tone of the meeting that Nanaimo will adopt some scheme in the near future to alleviate the waterworks problem, from the waterworks of Nanaimo's citizens. Those who attended were keenly alive to the fact that anything to make Nanaimo better than Nanaimo citizens go to the waterworks question will be a live issue.

Previously eighty-five per cent of the employees had been union men, but henceforth, in accordance with the new ruling, no outside drivers will be employed by the company.

Veterans Bus Drivers

All Members of Union

Renewal of the license for operation of bus parties at the premises of the Coach and Horse, Esquimalt, which was suspended at the end of last year, was granted to-day, it was announced from the offices of the Liquor Control Board.

Manitoba Farmers Make Clear Their Stand For Low Tariff Rate Levels

At Convention Workers on Land Declare For Increase in British Preference and Reduction in General Rates; Pool's Request For Higher Duty on Eggs Opposed

Brandon, Man., Jan. 10.—The United Farmers of Manitoba are in favor of an immediate and substantial increase in the British preference, with a reduction in the general tariff rates so as to bring down the cost of living and production.

The decision of the organization at yesterday's session of its annual convention here to urge this on the Federal Government was unanimous.

The convention labeled as inconsistent the request of egg producers for an increased duty on eggs.

After the convention had heard an extemporaneous address by Senator Robert Forke, Minister of Immigration, in which the ex-member of Brandon outlined his personal opinions on the immigration question, the assembly went on record as approving the immigration policy as outlined by Mr. Forke.

He opposed assisted immigration, although he mentioned British and Canadian sentiment precluded possible

AR TRAVELERS

Aerial travelers on planes of the Alaska-Washington Airways of B.C. this morning were:

From Seattle—William Blackford, J. Lucas and Larry Park.

To Seattle—Charles L. Reynolds, William Blackford, J. Lucas and Larry Park.

D. Wolmberg flew here from Seattle yesterday morning.

CARS CRASH AND INDIAN WOMAN DIES

Mrs. Davies Passed Away To-day After Being Unconscious Fifteen Hours

Inquest to Be Held on Monday Morning by Coroner Hart

Following an automobile collision on the East Saanich Road last night, Mrs. Martha Davies, Indian, died shortly after noon to-day at the Royal Jubilee Hospital, not having recovered consciousness. An invalid since infancy, the deceased was reported to Dr. W. T. Barrett, who attended, as having suffered for years with a weak heart, and her demise is attributed to this fact, there being no visible injuries.

The deceased was a passenger with friends in a northbound car driven by James Fraser at 8:15 o'clock last night. When north of Elk Lake a collision occurred with a southbound car driven by Henry Plater of 430 Springfield Avenue, both cars rolling into a roadside ditch eight feet deep. The following, in addition to the late Mrs. Davies, were given first aid by Chief of Police Rankin, and taken to the Jubilee Hospital for attention by Dr. Barrett.

Jimmie Johnie, Indian, Songhees Reserve, shaken up; Mrs. Jimmie Johnie, Indian, Songhees Reserve, cuts and bruises; Bobbie Davis, Indian, Songhees Reserve, cuts and bruises; and Miss Virginia Thomas, Indian, Songhees Reserve, cuts. Henry Plater, 430 Springfield Avenue, suffered cuts and bruises.

Mrs. Jimmie Johnie was removed to St. Joseph's Hospital this morning after having many cuts about the head and neck.

An inquest will be held by Coroner Dr. E. C. Hart on Monday morning at Hayward's B.C. Funeral Parlor.

PREMIER GIVEN MEMENTO OF V.C.'S DINNER

Vancouver, Jan. 10.—Premier S. P. Tolmie is to have a lasting memento of the Armistice Day dinner given in London in honor of winners of the Victoria Cross throughout the Empire, as which the Prince of Wales was chairman. Brought back from London and reconstructed in Vancouver, one of the big red poppy crosses which decorated the royal gallery in the House of Lords will be presented to the Premier as a souvenir of the dinner, to which British Columbia sent five representatives.

After the dinner, Major John McGregor, V.C., secured one of the giant Victoria Crosses. It was made by veterans in the Haig Poppy Factory, London. In order to bring it home he had to dismantle it. On arrival here he turned the pieces over to M. Cox, who has artistically reconstructed the cross, which is now being dispatched to Premier Tolmie.

TEN DEGREES OF FROST HERE IS PREDICTED

Ten or eleven degrees of frost in the lower levels of the city may be expected to-night, F. Napier Denison, superintendent of Genesee Meteorological Observatory, said this morning.

Continuation of freezing conditions for several days is in prospect, Mr. Denison said. While the temperature rose up to thirty degrees under the influence of a bright sun around noon, a fresh northerly wind gave a biting sting to the atmosphere and raised the hopes of skaters who are looking forward to an enjoyable week-end on their favorite sport.

Sub-zero temperatures are now general from the Rockies eastward to the Great Lakes and have spread as far as northern Texas, Mr. Denison stated. Northern California, in general with the rest of the Pacific Coast, had snow and sharp frosts this morning, while in Los Angeles and other sections of the state in the south have been deluged by heavy rains. An inch and a quarter of rain fell in the southern metropolis in the twenty-four hours ending at 5 o'clock to-day. The falling barometer to the south has resulted in the biting north wind here.

Under the influence of the cold spell, British Columbia rivers are starting to freeze. It was reported from New Westminster to-day that there was ice along the banks of the Fraser.

CONTEST FOR MAYORALTY AT ALBERNI SEEN

Three Aspirants For Seat of Chief Magistrate Now Expected

Alberni, Jan. 10.—A triangular contest for the mayoralty of Alberni at the forthcoming elections is now indicated. Alderman C. J. Spratt, C. C. Cocks, manager of Cortfield's Garage, and James H. Motion have all signified their intention of entering the field.

Four new aldermen will be elected, three for two-year terms and one for a one-year term, the seat being left vacant through the resignation of Alderman Spratt to contest the mayor's

Block Island, B.C., Jan. 10.—The freighter Edward Luckenbach grounded on Southwest Point in a dense fog early to-day and probably will be a total loss. It was believed here at a south wind pounded the vessel with heavy seas. The craft, of 7,916 tons gross, is 436 feet long.

Union
Hours
for Wives

Dorothy Dix

Discusses
Feasibility
in Family

"Many a Wife and Mother Who Makes a Failure Of a Twenty-four-hour-a-day as Wife and Mother Would Make a Success If She Could Do It on an Eight-hour Shift — What a Pity There Are No Union Hours for Wives!"

IN A RECENT speech the Secretary of Labor advocated an eight-hour working day and a two weeks' vacation every summer for wives. "Men have an eight-hour day," he said, "but the wife's work is never done from Sunday morning until Saturday night, and she puts in a night of it, too, if any one is sick. It seems to me that husbands might see to it that the reduction of working hours begins at home so that their wives could have their workday cut down to the eight-hour limit and be sure of at least one day of rest in seven. And they might see to it that their wives get a two weeks' vacation also every year."

Three cheers for the Secretary of Labor! The idea of having an eight-hour day, with one day off every week and a summer vacation sounds like a prophecy of heaven on earth to millions of poor, tired, overworked women whose lives are one incessant round of cooking, sweeping, mending, baby-tending, and who never expect to have any rest until they take it in their coffins.

But, alluring as is the theory of an eight-hour day for wives, one doesn't see how it is to be put in operation unless every man is to be permitted to have three wives and work them in shifts. And while this might appeal to the polygamist instincts of many husbands, it would certainly make no hit with jealous women who would rather work their fingers to the bones to maintain their monopoly over the men to whom they are married than to subdivide them with other women.

Likewise most husbands find one wife about all they can support in these days of the high cost of matrimony and would not care to take on a couple of extra accounts at the dress shops and the milliners and the beauty parlors.

Of course, it is women's right to have a union day, but the trouble with all of women's rights is that they can't enforce them. You can't imagine a mother lying abed in the morning while her hungry children howl for breakfast because the clock hadn't struck and her working day didn't start until 8 o'clock. Nor can you imagine a mother shutting the door on a sick child at night and leaving it to its fate because she wasn't on the night crew.

Neither can you imagine a wife throwing down her needle in the midst of sewing on a button for her husband or turning out the gas on a half-cooked dinner because the whistle had blown and her eight hours' labor was done. Nor can you picture a wife and mother taking a day off every week and leaving her family to get itself washed and dressed and fed while she idled around or went off somewhere to enjoy herself.

No, the work of running a home must go ceaselessly on. It is forever cooking meals that are eaten as soon as cooked. It is sweeping floors that must be swept over again the next hour. Darning stockings that are in holes again the next week. Washing little faces that are dirty again in five minutes. Somebody has to be continually on the job and that somebody has to be the wife and mother in families who are unable to hire servants.

Indisputably no woman, and especially the woman who is adding child-bearing to her other manifold labors, should be compelled to work longer hours than the huskiest man. Undoubtedly it is a shame that the wife and mother is the only slave on earth who is denied even one day of rest a week, for Sundays and holidays, when the balance of the family relax, are mother's hardest days because she has to cook her biggest dinners then and be on the jump getting the family off to church or on their pleasures. But what one is to do about it, how the situation is to be eased, is a problem that no Solomon has acted to solve.

The wife can't go out on a strike and leave her family to get hungry and uncared for, for there is no scab laborer who can take the place of mother. She can't demand extra pay for overtime because she gets all her husband makes anyway. And she can't demand much help from her husband because he has worked to the limit of his strength at his own occupation, and if he has to add to that the duties of laundress and housemaid and nurse, it breaks him down and unfits him to do the work by which he earns the family living.

No man who has his nightly rest broken by walking a colicky baby or hopping up and down to cover restless little sleepers or get water for thirsty little lips can compete in efficiency with the man who goes to his work after a night of unbroken sleep.

So, as long as husbands and children persist in getting hungry three times a day, if not oftener, and continue to wear out their clothes and tramp in dirt and have colds and tummy aches, it is not easy to see how wives are going to get that eight-hour day and one day off a week recommended by the Secretary of Labor. Perhaps if the great minds of the government concentrate on it they can work out a plan by which the family can get along without mother sixteen hours a day and on Sundays and if they do millions of grateful women will arise and bless their names.

But let us hope that at least out of this discussion some method will be evolved to lighten the labor of the domestic woman and make her life easier and pleasanter. Nothing will do more to make marriage a success, for most of the faults in their wives of which men complain are the direct result of overwork and a drudgery that dulls and deadens them.

Half of wives' temper and peevishness and nagging are the crying out of the poor, ragged nerves of women who have toiled at monotonous tasks until they are exhausted in mind and body and everything irritates them. A day off, even an evening off, and at some place of amusement, still more a two weeks' vacation would send them back to their jobs rested and refreshed, amiable and pleasant and sentimentally in love with their husbands again.

Many a woman who makes a failure of a twenty-four-hour-a-day job as wife and mother would make a success if she could do it on an eight-hour shift. What a pity that there are no union hours for wives!

Sister Mary's Kitchen

By SISTER MARY

Orange bread is delicious to serve with afternoon tea. Plain bread and butter sandwiches of the bread are dainty and most compatible with tea.

If a more elaborate sandwich is wanted, cream cheese and nuts make an excellent filling.

Either yeast bread or quick bread can be flavored with orange. The yeast bread keeps better, so if the bread must be made long before wanted this rule is more desirable.

ORANGE BREAD (Yeast Method)

One cake compressed yeast, 1 cup orange juice, 2 tablespoons grated orange rind, 4 tablespoons sugar, 2 tablespoons melted butter, 1/2 cup candied orange peel, 1 egg yolk, 1/2 teaspoon salt, 1/4 cup lukewarm water, 3 cups flour.

Dissolve yeast cake in water. Add orange juice, half the sugar, salt and one cup flour. Stir with a spoon until smooth, and let stand covered in a warm place until bubbly and doubled in bulk. Add remaining sugar, butter, orange rind and finely chopped candied peel and egg yolk. Mix well and add remaining flour. Use as little flour as possible. Knead until smooth and elastic and put into mixing bowl. Cover and let rise in a warm place until double in bulk. Shape into a loaf and let rise again. When double

in bulk, bake one hour in a moderately hot oven.

ORANGE BREAD (Quick Method)

Four cups pastry flour, 6 teaspoons baking powder, 1 teaspoon salt, 1/2 cup sugar, 2 tablespoons melted butter, 2 tablespoons grated orange rind, 1/2 cup orange marmalade, 1 egg, 1 1/2 cups milk.

Mix and sift flour, salt, baking powder and sugar. Beat egg until light and add with remaining ingredients to dry mixture. Mix thoroughly and turn into a well-oiled bread pan. Let rise fifteen minutes and bake fifty minutes in a moderate oven.

Work Urged To Help Unemployment

Montreal, Jan. 10.—A recommendation to the members of boards of trade and chamber of commerce throughout Canada to put under way all new work possible to relieve unemployment was made here yesterday at a meeting of the business committee of the Canadian Chamber of Commerce.

Tin Hat Inventor Dies in England

Bournemouth, Eng., Jan. 10 (Canadian Press Cable).—Alfred Bates, inventor of the steel helmet, "tin hat" as soldiers called it during the world war, died here yesterday while bathing. A member of a Halifax firm of art metal workers, Bates devised the steel helmet when casualty lists from flying ships were heavy. The helmet probably saved thousands of lives.

MOVIE QUEENS ATTEND BESSIE LOVE'S WEDDING

The most elaborate wedding Hollywood's movie colony has had in five years fell to the lot of Bessie Love when she became the bride of William B. Hawks, Los Angeles broker. This picture shows the wedding party in St. James Episcopal Church just after the ceremony. Left to right are: Norma Shearer, Irene Mayer, daughter of Louis B. Mayer; Bob Daniels, Athole Shearer, William Hawks, Bessie Love, Blanche Sweet, Carmel Myers and Edith Mayer.

AT THE THEATRES

"DUMB" DETECTIVE ROLE IS PERFORMED BY FRED KELSEY

Fred Kelsey, who has become symbolic in the movies for a perfect portrayal of a slow-witted detective, has another chance to display his art in "The Fall of Eve," the Columbia talking special, now at the Playhouse Theatre. In this film he is given an opportunity to try his hand at smoothing out the marital difficulties of Patsy Ruth Miller, Ford Sterling, Arthur Rankin, Ted Proty, Gertrude Astor and Betty Farrington. As usual, he does not succeed—but his efforts prove amusing.

BILLY BEVAN KEEPS TRICK MOUSTACHE FOR EMERGENCIES

Billy Bevan, who hid his ability behind a walrus moustache for years in two-reel comedies, only to emerge as a capable comedian of legitimate means in William Boyd's current Pathé star picture, "High Voltage," now showing at Columbia Theatre, refused to desert the lip disguise entirely when he went to Lake Tahoe on location in the snow country—why? How? opportunity to try his hand at smoothing out the marital difficulties of Patsy Ruth Miller, Ford Sterling, Arthur Rankin, Ted Proty, Gertrude Astor and Betty Farrington. As usual, he does not succeed—but his efforts prove amusing.

COLOR PHOTOGRAPHY OF CAPITOL FILM IS VERY ELABORATE

Presenting Colleen Moore in Technicolor for the first time since an episode of "Irene" several years ago, "Footlights and Fools," which opened yesterday at the Capitol Theatre, is said to offer the most perfect color photograph yet achieved for motion pictures. Three elaborate sequences of this comedy-drama are shown entirely in natural colors, enhancing the beauty of the brilliant stage episodes of the story. Miss Moore, gorgeously costumed, is seen in a series of strikingly beautiful gowns, with a colorful ensemble of seventy-two chorus girls and men. Dance numbers by this huge array of players make these scenes of "Footlights and Fools" all the more spectacular.

NANCY CARROLL AND JACK OAKIE RECALL THEIR SCHOOL DAYS

It was Old Reunion Week for Broadwayites recently when the cast foregathered for the first time since the cameras and microphones of "Sweetie," the film comedy which is now showing at the Dominion Theatre. Nancy Carroll, cast as the leading lady in the production, and a native New Yorker, met Jack Oakie, who plays "Tap-Tap" Thompson in the film, when his mother first brought him to New York and put him in school there.

"He still had a drawl that he had picked up in Oklahoma," she said, "and his proudest accomplishment was that he was the only boy in his

class that knew how to chew tobacco. "After school, he used to take me ice skating in Central Park, carrying my skates and putting them on for me. When we would return home, he used to take great delight in showing me how he did a waltz clog."

"THE FAMILY GOAT" DELIGHTFUL COMEDY AT VARIETY THEATRE

Whirlwind comedy and a delightful love story combine to make the three-act farce, "The Family Goat," in which the immensely popular Toby Leitch plays the role of the Cinderella daughter of the family, target of satire and ridicule, who makes a gallant fight for happiness and love and triumphs in the end.

Toby Leitch, under whose personal direction the play is being presented, is cast as a very much harassed father of the family. Dominated by his wife for many years, father is at last goaded into asserting himself. And what rollicking, side-splitting comedy there is in this self-assertion, as Toby so cleverly portrays it! With an all-star cast in support, "The Family Goat" is one of the finest comedies ever produced here—a veritable gold mine of laughter! Spencer's Orchestra gives a musical presentation of a very high order of excellence, indeed, and Leon Clouff reveals himself a talented singer in a vaudeville specialty number.

Toby Leitch is receiving many compliments on the efficient way in which the Variety is kept comfortably warm and yet well ventilated these cold winter nights. Both the play and the theatre are admirably suited to appeal to people of discrimination.

"The Family Goat" will be presented to-night and to-morrow night with a bargain matinee to-morrow at 2:30.

TUNEFUL NUMBERS HEARD IN PICTURE AT THE COLISEUM

The Coliseum's first all-talking, all-singing and all-dancing film, a picture entitled "Woman to Woman," is being enthusiastically received by a large house drawn out by the announcement that the popular and talented Betty Compton was appearing in the title role. Last night's audience was given a rare treat, for seldom has so fine a picture been seen in Victoria. It is modern in the highest degree and yet it has its serious side and teaches a great human lesson. Added to this stellar feature attraction is a comedy entitled "Midnight Daddies" starring

SCENES FROM DOMINION FEATURE

"Sweetie," a 100 per cent talking picture with Nancy Carroll in the title role, is showing for the last three days of the week at the Dominion.

Alma Bennett, a comedy which is uproariously funny. The Coliseum talking machine is working perfectly and superbly reproducing the snappy and timely dance numbers which are seen in the gay cafes of Paris during the war. A chorus of beautiful girls in lavish costumes of silks and feathers and jewels, appears in these numbers and are seen in some of the best vaudeville ever produced on the screen. Beautiful Betty Compton is more lovely than ever in her latest role and gives a noteworthy performance as the beautiful Parisienne in search of love and thrill. She appears in several exotic costumes which are the latest word in feminine luxury.

ELECTION TALKS FOR OAK BAY

Candidates Will Speak at Municipal Hall Monday

Reeve E. C. Hayward of Oak Bay will hold a public meeting in the Municipal Hall on Oak Bay Avenue on Monday evening next at which he, the councillors, members of the school board and the police commission will speak, telling of affairs in the municipality during the year just closed. The meeting will commence at 8 o'clock.

The elections in Oak Bay this year will be quiet. So far there have been no nominations for reeve or councillors, and it is probable that the three retiring councillors, W. H. Mearns, T. J. Goodlake and A. D. Crease will be returned by acclamation, as will Reeve Hayward. There may be a contest for the school board, as nomination papers have been taken from the school board.

Nominations will close at the Municipal Hall on Monday, and the election will be held at the same place on Tuesday, January 15. P. Blandy will act as returning officer.

Oak Bay Bus Affairs Will Be Discussed

A special meeting of the Oak Bay Council will be held shortly to consider a draft agreement for the bus franchise within the municipality. It was announced last night. The council will make a definite announcement early next week it is expected. It is possible that the matter will be placed before the voters of the municipality at the annual elections on January 18. A petition, signed by over 1,000 residents of Oak Bay, was considered last night by the council. This petition asked that certain exclusive rights and privileges be granted the Royal Blue Line for a substantial period of years. The petition will form the basis of discussion at the coming special meeting.

Canada Flour Sale Improves in Scotland

Toronto, Jan. 10.—For some time past, until very recently, Canadian flour sales in Scotland were falling off heavily, as prices were out of line, writes G. B. Johnson, Canadian trade commissioner in Glasgow. The situation, however, is passing, if it has not already passed. Kansas and Minneapolis flours, owing to the fact that Canadian spring

wheat flours had been at a very high level, were making considerable inroads on the trade. Since then, however, the Canadian wheat market has fallen much. Previously there was a difference in price between American and Canadian flours of from 4 and 5¢ a sack, with the natural result. The difference is not now so marked, about 1¢ per 280 pounds. Consequently, the trade that is passing at present is more in Canadian than in American flour.

American flour can, up to a point, be substituted for Canadian, but not entirely. There is always a demand for Canadian spring wheat flour, but naturally when there is a difference of 5¢ a sack, the demand is not so great.

A great inducement for buyers to use a greater proportion of American.
